side of most events For serious foodies this book may be a little thin on content but there are some interesting pieces of food history and it is very much a personal view of the last sixty years The book is set out in four sections based loosely on four periods of the author s life and given titles based on a four course meal of hors d oeuvres fish meat and dessert entitled horses doovers fishy tales butcher s meat and just desserts If you want a relaxing read on an inconsequential life which may make you smile buy this book If you want a serious cookery book or autobiography of someone famous or important then you will have to look elsewhere What does come through is here is a book written by a guy with a love of life a beard more appropriate to a mad badger and a slightly quirky sense of humour who writes for his own enjoyment but with a warmth others may find undemanding
