## A History Of Fishes:

**A History of Fishes** John Roxborough Norman, Peter Humphry Greenwood, 1975 [A History of Fishes](#) J. R. Norman, 2020-04-22 This book has been considered by academicians and scholars of great significance and value to literature. This forms a part of the knowledge base for future generations so that the book is never forgotten we have represented this book in a print format as the same form as it was originally first published. Hence any marks or annotations seen are left intentionally to preserve its true nature.

**History of Fishes** John Roxborough Norman, 1998-12 **A History of Fishes**, 1801 *A History of the Fishes of Massachusetts* David Humphreys Storer, 2012-01 Unlike some other reproductions of classic texts 1 We have not used OCR (Optical Character Recognition) as this leads to bad quality books with introduced typos 2 In books where there are images such as portraits, maps, sketches, etc. We have endeavoured to keep the quality of these images so they represent accurately the original artefact. Although occasionally there may be certain imperfections with these old texts, we feel they deserve to be made available for future generations to enjoy.

*A History of the Fishes of Massachusetts (Classic Reprint)* David Humphreys Storer, 2015-08-05 Excerpt from *A History of the Fishes of Massachusetts*: As one of the Commissioners on the Zoology of Massachusetts in the year 1839 I prepared a Report on the Ichthyology of the State. From the brief time occupied in its preparation it was necessarily imperfect and not being accompanied by figures was comparatively useless except to scientific men. Since the appearance of that communication much information has been obtained respecting several of the most common and valuable fishes, and quite a number of new species have been ascertained to exist in our waters. Having carefully re-described all the species I trust the following paper will present an accurate history of the fishes of our State. Considering this as the completion of my former Report I have kept in view the primary object of the commission to ascertain the value of our Fauna in an economical point of view rather than to prepare labored scientific descriptions. To all who have aided me since this paper was commenced or rather since my attention was first directed to our ichthyology I would return my grateful acknowledgments.
