A History Of Modern Burma:

A History of Modern Burma Michael W. Charney, 2009-01-22 Burma has lived under military rule for nearly half a century. The results of its 1990 elections were never recognized by the ruling junta and Aung San Suu Kyi leader of Burma's pro-democracy movement was denied her victory. She has been under house arrest ever since. Now an economic satellite and political dependent of the People's Republic of China, Burma is at a crossroads. Will it become another North Korea, will it succumb to China's political embrace, or will the people prevail? Michael Charney's book, the first general history of modern Burma in over five decades, traces the highs and lows of Burma's history from its colonial past to the devastation of Cyclone Nargis in 2008. By exploring key themes such as the political division between lowland and highland Burma and monastic opposition to state control, the author explains the forces that have made the country what it is today. [A History of Modern Burma](#) John Frank Cady, 1958 *A History of Modern Burma* John Frank Cady, 1978 **A History of Modern Burma** John Frank Cady, 1958 *A History of Modern Burma. Chap. 1, 2* John Frank Cady, 1958 *The Making of Modern Burma* Thant Myint-U, Thant Myint-U., 2001-03-26 Burma has often been portrayed as a timeless place, a country of egalitarian Buddhist villages ruled successively by autocratic kings, British colonialists, and most recently a military dictatorship. *The Making of Modern Burma* argues instead that many aspects of Burmese society today, from the borders of the state to the social structure of the countryside to the very notion of a Burmese identity, are largely the creations of the nineteenth century, a period of great change away from the Ava-based polity of early modern times and towards the British Burma of the 1900s. The book provides a sophisticated and much-needed account of the period and as such will be an important resource for policy makers and students as a basis for understanding contemporary politics and the challenges of the modern state. It will also be read by historians interested in the British colonial expansion of the nineteenth century. **Pagan** Michael A. Aung-Thwin, 2019-03-31 *Pagan: The Origin of Modern Burma* offers major contributions in three areas: the manner in which it integrates original indigenous source material with social science theory; the significant association it makes between religion and the economy of redistribution; and the model it provides for the rise and decline of a major Buddhist kingdom in Southeast Asia. This is an important book for Southeast Asia scholars and Burma specialists. It will be standard reference work for historians, social scientists, and philologists with an interest in Southeast Asia. Readers interested in general issues of church and state, religion and society, as well as those more specifically concerned with historic and institutional Buddhism, will find it a valuable work. [Ordering Violence](#) Paul Staniland, 2021-12-15 In *Ordering Violence*, Paul Staniland advances a broad approach to armed politics, bringing together governments, insurgents, militias, and armed political parties in a shared framework to argue that governments' perception of the ideological threats posed by armed groups drive their responses and interactions. Staniland combines a unique new dataset of state group armed orders in India, Pakistan, Burma, Myanmar, and Sri Lanka with detailed case studies from the region to explore when and how this model of threat perception provides insight.

into patterns of repression collusion and mutual neglect across nearly seven decades Instead of straightforwardly responding to the material or organizational power of armed groups Staniland finds regimes assess how a group s politics align with their own ideological projects Explaining for example why governments often use extreme repression against weak groups even while working with or tolerating more powerful armed actors Ordering Violence provides a comprehensive overview of South Asia s complex armed politics embedded within an analytical framework that can also speak broadly beyond the subcontinent

Burma's Economy in the Twentieth Century Ian Brown,2013-11-07 At the beginning of the twentieth century Burma was among the most prosperous territories in the East Yet since gaining independence in 1948 its economy has struggled Burma s developmental failure has often been attributed to gross mismanagement of the economy by the military who took power in 1962 but in this illuminating book Ian Brown one of the leading economic historians of Southeast Asia provides a fresh examination of the country s economic past thereby setting that failure in the context of the colonial period For the first time a review of Burma s economic experience in the final decades of British rule is integrated with an analysis of its economy since independence providing a detailed understanding of the complex origins of Burma s economic failure in the second half of the twentieth century This is a compelling introduction to Burma s political and economic history for students in Southeast Asian history development studies and political science

Asian Freedoms David Kelly,Anthony Reid,1998-06-13 Many Westerners assume that freedom has been bypassed in Asia given the often brutal suppression of demands for its extension in some Asian countries and its more tentative status in others where desire for social order is dominant This book argues that Western ideas of freedom have become widely accepted in Asia and the key determinant for measuring a range of legal ethical and political practices The book finds that modern conceptions of freedom throughout Asia are rooted in local histories institutions and practices becoming adapted to local contexts The book avoids cultural relativism and blanket generalisations but does find a number of common ideas relating to freedom across the region A prestigious group of contributors explores freedom from historical religious political and ideological perspectives acknowledging the many variations in the theme of human liberation
