A House Possessed:

A House Possessed Charity Blackstock,1976-06-01 *A House Possessed* Leslie Paige,1974 **A Treatise on Various Branches of the Criminal Law of Scotland** John Burnett,1811 Plympton Priory: A House of Augustinian Canons in South-Western England in the Late Middle Ages Allison Fizzard,2007-11-01 This book makes a contribution to knowledge of the history of the Augustinian canons in England through a case study of one particular house in the south west of the country Plympton Priory in Devon was founded in 1121 by a bishop of Exeter and through episcopal and lay donations of temporal and spiritual sources of income became one of the wealthiest houses of Augustinian canons in England Analysis of surviving records reveals the multiplicity of connections existing between the canons and the laity the secular clergy the episcopacy and the Crown until the priory s dissolution The result is a multi faceted study of the roles played by an Augustinian house in society and within the Church in the late Middle Ages *The Black and White List, Or, Electors' Handbook & Guide* John Joseph Walsh,1868 *The Early English Impersonal Construction* Ruth Möhlig-Falke,2012-06-06 The Early English Impersonal Construction aims to demonstrate that an understanding of the functional and semantic aspects of impersonal verbs in Old and Middle English can shed light on questions that remain about these verbs today

Vernacular Architecture in the Pre-Columbian Americas Christina Halperin,Lauren Schwartz,2016-09-13 Vernacular Architecture in the Pre Columbian Americas reveals the dynamism of the ancient past where social relations and long term history were created posthole by posthole brick by brick This collection shifts attention away from the elite and monumental architectural traditions of the region to instead investigate the creativity subtlety and variability of common architecture and the people who built and dwelled in them At the heart of this study of vernacular architecture is an emphasis on ordinary people and their built environments and how these everyday spaces were pivotal in the making and meaning of social and cultural dynamics Providing a deeper and more nuanced temporal perspective of common buildings in the Americas the editors have deftly framed a study that highlights sociocultural diversity while at the same time facilitating broader comparative conversations around the theme of vernacular architecture With diverse case studies covering a broad range of periods and regions Vernacular Architecture in the Pre Columbian Americas is an important addition to the growing body of scholarship on the indigenous architecture of the Americas and is a key contribution to our archaeological understandings of past built environments
