A Kings Confectioner In The Orient

William Chaffers

A Kings Confectioner In The Orient:

A King's Confectioner in the Orient Friedrich Unger, 2003 This book written in 1837 by Friedrich Unger Chief Confectioner to King Otto I of Greece is a remarkable window onto what is in many respects a lost world Only a professional confectioner could have understood the techniques equipment and ingredients sufficiently to leave a record so invaluable for recreating oriental confectionery Moreover Unger carried out his research at just the right time before economic troubles westernization and the collapse of the guild system changed much beyond recall Unger worked on his research for five years His book is comprehensive and detailed with recipes for 97 confections some of which have disappeared entirely today The light the book throws on relations between Turkish and European confectionery is of particular interest

Sweets and Candy Laura Mason, 2018-04-15 With eye popping colors and shapes intense flavors and curious textures sweets and candy are beloved by people of all ages worldwide They provide minor treats lessons in economics for children and colorful giveaways to mark festivities They can be admired for beauty and novelty make ideal gifts and can even be used to woo But these seemingly inconsequential indulgences are freighted with centuries of changing cultural attitudes social and economic history emotional attachments and divergent views on the salubriousness of sugar How did confectionary become so popular Why do we value concentrated sweetness in such varied gooey forms And in the face of ongoing health debates why persist in eating sweets From marzipan pigs and nutty nougat to bubblegum and bonbons Sweets and Candy looks beneath the glamour and sparkle to explore the sticky history of confectionary Methods for making sweets can be traced back to the importance of sugar in Arabic medicine and the probable origin of this practice in ancient India a place where sweetness is still important for both humans and gods Gorging on gobstoppers from these early candy antecedents to modern day delectables Laura Mason describes the bewildering and fascinating ways in which different cultures have made consumed valued and adored sweets throughout history Featuring a selection of mouthwatering illustrations and scrumptious recipes to try at home this global candy trail will delight sweet toothed foodies and history buffs everywhere

What We Eat Pierre Singaravélou, Sylvain Venayre, 2025-08-12 Ketchup seems iconically American but the word comes from a Southeast Asian anchovy sauce and today it is made largely from Chinese tomato paste Japan's beloved ramen arose from the meeting of Chinese noodles and American wheat flour before attaining worldwide popularity in both gourmet and convenience food forms The baguette is mythologized as a product of the French Revolution but in fact it emerged during late nineteenth century urbanization Colonialism brought baguettes to Vietnam where street vendors devised a new dish banh mi which refugees took with them around the world Telling these tales and many others What We Eat explores world history through the lens of the global journeys of nearly ninety food products Leading historians trace the origins and popularization of items commonly found in supermarkets showing how each food illuminates wider histories They consider the tension between the role of cuisine in shaping particular cultural identities and the standardization associated with globalization and they

demonstrate how foods have transformed as different societies have borrowed them Chapters reveal the surprising sagas of coffee cornflakes gin guacamole hot dogs hummus naan pet food pizza sparkling water sushi and many more At once an intimate and a global history What We Eat shows readers the everyday items on grocery store shelves in a new light
