A Labour Of Love Experience Of Parenthood In Britain 1900 50:

Sex Before the Sexual Revolution Simon Szreter, Kate Fisher, 2010-10-14 What did sex mean for ordinary people before the sexual revolution of the 1960s and 1970s who were often pitied by later generations as repressed unfulfilled and full of moral anxiety This book provides the first rounded first hand account of sexuality in marriage in the early and mid twentieth century These award winning authors look beyond conventions of silence among the respectable majority to challenge stereotypes of ignorance and inhibition Based on vivid compelling and frank testimonies from a socially and geographically diverse range of individuals the book explores a spectrum of sexual experiences from learning about sex and sexual practices in courtship to attitudes to the body marital ideals and birth control It demonstrates that while the era s emphasis on silence and strict moral codes could for some be a source of inhibition and dissatisfaction for many the culture of privacy and innocence was central to fulfilling and pleasurable intimate lives *The Invention of Childhood* Hugh Cunningham, 2012-10-31 The Invention of Childhood will paint a vivid picture of the lives of children in Britain from pagan Anglo Saxon times to the present day Drawing heavily on primary sources such as diaries autobiographies paintings photographs and letters the book will present a complete chronological history of the experience of children in Britain during the past 1500 years We will learn the key elements that have shaped their lives down the ages and how this has differed as a result of gender geography and ethnicity The book will also relate children s lives to larger events in national and international history Written by Hugh Cunningham the Professor of History at the Universtity of Kent at Canterbury and an expert on childhood history the book will accompany the Radio 4 series presented by the highly respected children s author Michael Morpurgo Michael is contributing a lengthy foreword to the book The Invention of Childhood will expand on a number of key themes from the radio series including the idea of childhood as a distinct stage of life Opinions on when childhood should start and end and how it differs from adulthood have changed considerably down the centuries And these inventions and reinventions of childhood hence the title have had a profound effect on children s lives The prolonged childhood we enjoy in Britain today was a luxury few could afford in the past This fascinating study will draw attention to the ways in which we may find childhood and children in the past quite similar to the present and to ways in which children s lives from the past seem to differ sharply from the lives children lead today **Women and Evacuation in the Second World War** Maggie Andrews, 2019-08-08 Groups of young evacuees standing on railway stations with gas masks and cardboard suitcases have become an iconic image of wartime Britain but their histories have eclipsed those of women whose domestic lives were affected This book explores the effects of this unparalleled interference in the domestic lives of women looking at the impact on everyday experience and on ideas of femininity domesticity and motherhood Maggie Andrews argues that wartime evacuation is important for understanding the experience and the contested meanings of domesticity and motherhood in the 20th century As this book shows evacuation represents a significant and unrecognised area of women s

war work and precipitated the rise of competing public discourses about domestic labour and motherhood

Family Men Laura King, 2020-01-09 Fathers are often neglected in histories of family life in Britain *Family Men* provides the first academic study of fathers and families in the period from the First World War to the end of the 1950s It takes a thematic approach examining different aspects of fatherhood from the duties it encompassed to the ways in which it related to men's identities The historical approach is socio-cultural each chapter examines a wide range of historical source materials in order to analyse both cultural representations of fatherhood and related social norms as well as exploring the practices and experiences of individuals and families It uncovers the debates surrounding parenting and family life and tells the stories of men and their children While many historians have examined men's relationship to the home and family in histories of gender family life domestic spaces and class cultures more generally few have specifically examined fathers as crucial family members as historical actors and as emotional individuals The history of fatherhood is extremely significant to contemporary debate assumptions about fatherhood in the past are constantly used to support arguments about the state of fatherhood today and the need for change or otherwise in the future Laura King charts men's changing experiences of fatherhood suggesting that although the roles and responsibilities fulfilled by men did not shift rapidly their relationships position in the family and identities underwent significant change between the start of the First World War and the 1960s

A Century of Women Sheila Rowbotham, 1997 Rowbotham charts the remarkable changes and interchanges in the lives of British and American women in the last hundred years encompassing the multitude of events that become daily news along with submerged personal experiences

Women, Identity and Private Life in Britain, 1900-50 Judy Giles, 1995 This title explores the meanings and experience of home and private life for women who grew up in England before 1950 It considers the extent to which class suburbanization and historical moment as well as gender constructed women's understanding of domesticity and discusses the part played by conceptions of home and private life in the shaping of identities Oral narratives fiction autobiography and diaries are used in conjunction with psychoanalytic linguistic and historical explanations of women's lives to map a psychological as well as a social history of women's relationship to the home in the early part of the 20th century

Women in the 1920s Pamela Horn, 1995 Drawing on family papers contemporary publications and archive research this book presents a vivid picture of women's lives in the 1920s Essential reading for students of women's history and social historians
