Outline how Milgram investigated the effects of two factors on obedience (4 marks)

- They replaced location from a prestigious school setting to a run-down building.
- Compliance fell to 47%, showing they had less power in this setting.
- In the original experiment, they wore a uniform. In a variation, the experimenter was an ordinary member of the public dressed in regular clothes.

- It originates from childhood through harsh parenting, for example, severe discipline and harsh criticism.
