Covenant and Search Arthur Wormhoudt, 1992 *Literary Approaches to the Bible* Douglas Mangum, Douglas Estes, 2018-03-14 The study of the Bible has long included a literary aspect with great attention paid not only to what was written but also to how it was expressed The detailed analysis of biblical books and passages as written texts has benefited from the study of literature in classical philology ancient rhetoric and modern literary criticism This volume of the Lexham Methods Series introduces the various ways the study of literature has been used in biblical studies Most literary approaches emphasize the study of the text alone its structure its message and

its use of literary devices rather than its social or historical background The methods described in Literary Approaches to the Bible are focused on different ways of analyzing the text within its literary context Some of the techniques have been around for centuries but the theories of literary critics from the early 20th century to today had a profound impact on biblical interpretation In this book you will learn about those literary approaches how they were adapted for biblical studies and what their strengths and weaknesses are

Biblical Theology of the Old and New Testaments Brevard S. Childs, 1993-04 This monumental work is the first comprehensive biblical theology to appear in many years and is the culmination of Brevard Childs's lifelong commitment to constructing a biblical theology that surmounts objections to the discipline raised over the past generation. Childs rejects any approaches that overstress either the continuity or discontinuity between the Old and New Testaments. He refuses to follow the common pattern in Christian thought of identifying biblical theology with the New Testament's interest in the Old. Rather, Childs maps out an approach that reflects on the whole Christian Bible with its two very different voices, each of which retains continuing integrity and is heard on its own terms.

Text and Interpretation Hartin, Petzer, 2019-07-01 *Text and Interpretation* gives an insight into the many different approaches that more recent South African scholarship has adopted in the interpretation of the New Testament. While the number of approaches in New Testament interpretation has proliferated over the past few years, all the proposals still fall under one of the three traditional poles: sender, author, text, receptor, reader. Classified according to this division, each chapter has a twofold aim. Firstly, the perspective is situated within a wider framework of interpretation to illustrate the context out of which this approach emerges. Secondly, each article has selected a particular New Testament text to demonstrate this approach in practice. The authors of these chapters, the majority of which are South African scholars, were chosen because of their expertise in their specific fields. By presenting these studies together in one collection, the scholarship in these different areas will become more readily accessible to a wider group of scholars.

The Approach to the New Testament James Moffatt, 1921

Images of Salvation in the New Testament Brenda B. Colijn, 2010-10-05 The New Testament does not develop a systematic doctrine of salvation, writes Brenda Colijn. Instead, it presents us with a variety of pictures taken from different perspectives. Students of the New Testament and of theology will both find their vision broadened and their understanding deepened by this rich, informative study. As the author seeks to understand their implications for people of faith, she uncovers how New Testament images provide the building blocks of the master story of redemption.

Literary Criticism of the New Testament William A. Beardslee, 1970 For many years, scholars have concentrated on the literary sources used by the author/editors of the books of the New Testament and regarded these books as self-consciously created. William A. Beardslee turns literary criticism in a new direction by looking at the New Testament as unself-conscious popular
