The Future of No Work: Master AI, Gain Superpowers, Earn More and Live by Your Own Rules Filip Drimalka, 2025-04-10 We have been told for ages that technology would make our lives easier. Instead, we increasingly find ourselves drowning in tedious tasks and feeling trapped in the daily grind: overflowing calendars, endless to-do lists, and a never-ending stream of interruptions. And since we're always connected, our work never seems to end. Fortunately, the AI revolution is here. And it's about to change everything. Imagine a world where technology finally starts taking care of all the boring stuff so you can focus on what really matters to you. Where smart AI apps empower you to create anything you can imagine and even things you never would have thought of. Where you have the power to redesign work around your life, not the other way around. This is the era of No Work. It's not about escaping work, but about using our skills and leveraging the possibilities unlocked by AI so that our days are primarily comprised of the things we are passionate about. Because that's how we can create something extraordinary. Inside this book, you'll find hundreds of practical examples and tips: How to find, select, and use the right digital tools for anything you do. How to make your productivity skyrocket with AI and reclaim your time. How to do things your way with greater freedom by automating more tasks. How to craft the work you want, whether you're an entrepreneur or an employee. How to seize new opportunities and build a future-proof career. The book will provide you with loads of tips on the best apps and tools that are part of the AI revolution, but the real magic is how it changes the way you think. You'll learn new skills and timeless principles that will keep you ahead of the game, no matter how AI changes the way we work.

Digital Media, Projection Design, and Technology for Theatre Alex Oliszewski, Daniel Fine, Daniel Roth, 2025-01-30 *Digital Media Projection Design* converging and blending projectors, projection mapping, calculating surface brightness, luminance, screen size, and throw distance, and more, making this a complete guide to digital media and projection design today. The second edition is updated with new content throughout and two new chapters addressing the latest technologies and trends in virtual performance, motion capture, generative AI, and VR/AR. Ten new case studies from diverse practitioners have been added, and the book is restructured with shorter chapters for easier navigation and reference. This book serves well as a main or supplemental textbook for courses in projection design, theatre, and digital media design. It is also useful for emerging practitioners. Sample assets and interviews with leading projection designers are available for download at www.routledge.com/9781032302157.

Digital Storytelling Leah Henrickson, 2025-11-10 We tell

stories to make sense of chaos We come to understand the world and our places in it through these stories And we share these stories with others finding points of connection Storytelling is part of who we are and with digital media its more accessible and adaptable than it has ever been Since emerging in the 1990s the field of digital storytelling has centred on a single model of story creation that remains in widespread use today However digital media environments and communities have changed Its time for the field of digital storytelling to change with them Digital Storytelling provides a new cutting edge introduction to this topic It sets an alternative agenda for the field one that regards digital storytelling as characterised not by any particular kind of method or output but by ongoing processes of meaning making in digital environments Weaving historical references throughout this textbook illustrates the interconnectedness of media individual experiences and society and culture It shows that digital storytelling is a particular context of storytelling that has emerged from a confluence of traditions and technologies forever in flux This original and landmark textbook is required reading for students of media communications sociology cultural studies and English as well as for anyone looking to understand the transformative power of digital storytelling in all of its forms
