American Education In Foreign Perspectives:

Changing Perspectives on International Education Patrick O'Meara, Howard D. Mehlinger, Roxana Ma Newman, 2001
More than 40 years ago recognizing that higher education would have to take responsibility for educating Americans about other world cultures and societies Congress passed the National Defense Education Act later known as the Higher Education Act Title VI of this act has provided extensive support for foreign languages and area studies development in the nation's universities and colleges As a result millions of Americans have been able to acquire knowledge about other parts of the world Today there are new issues demands and perspectives Americans are more likely than ever to encounter different cultures business practices histories ideologies and ways of life In addition the United States is increasingly called upon to intervene or mediate in regional and local crises far beyond its borders U S educational institutions must continue to help citizens to have informed opinions about complex international problems *Changing Perspectives on International Education* is designed to be used by administrators and planners in U S education It covers the field of international studies as it has developed in the United States from its beginnings and accomplishments under Title VI to the current paradigmatic shifts taking place in research teaching and outreach A major section is devoted to internationalizing the curriculum of K 12 schools It concludes with a look at future trends and how they may affect international scholarship and training in the new century It also provides an extensive bibliography of international resources

American Education in a Global Society Gerald Lee Gutek,2006 [Comparative Perspectives on International School Leadership](#) Cathryn Magno,2013-02-11 Through a multi country study Comparative Perspectives on International School Leadership examines the current global spread of educational leadership occurring rapidly and widely Exploring five international case studies of leadership policy preparation and practice under the framework of policy borrowing and adaptation Magno attempts to understand and account for commonalities and differences across country contexts Rather than assuming a particular model or theory to leadership is best Comparative Perspectives on International School Leadership takes a policy oriented perspective and considers how and why certain approaches are being formulated and accepted including an examination of motivations influencers actors institutions and implementation processes Magno ultimately argues that efforts toward formalizing educational leadership reflect current global political objectives to improve schools by increasing accountability transparency and professionalism This engaging book will be of interest to scholars and students in the fields of educational leadership and comparative education

International Perspectives on Teaching and Learning Mathematics with Virtual Manipulatives Patricia S. Moyer-Packenham,2016-06-21 This book explores terminology frameworks and research being conducted worldwide on virtual manipulatives It brings together international authors who provide their perspectives on virtual manipulatives in research and teaching By defining terminology explaining conceptual and theoretical frameworks and reporting research the authors provide a comprehensive foundation on the study and use of virtual manipulatives for mathematics teaching and learning This foundation provides a common way for

researchers to communicate about virtual manipulatives and build on the major works that have been conducted on this topic By discussing these big ideas the book advances knowledge for future research on virtual manipulatives as these dynamic tools move from computer platforms to hand held touch screen and augmented platforms

American Education : British Commentary Stewart E. Fraser,1997 British Commentary on American Education Stewart E. Fraser,1970 *Education Abroad and the Undergraduate Experience* Elizabeth Brewer,Anthony C. Ogden,2023-07-03 Co published with This volume focuses on two questions First how can education abroad be embedded into undergraduate education so that students experience it as an integral component of their education and something they help shape rather than as time away from their education and as a commodity to be consumed Second how can colleges and universities maximize the educational value of education abroad by forging stronger connections between it and other undergraduate experiences The volume argues that learning abroad be positioned within the work of the larger institution and students overall education Organized within three sections this volume makes the case that learning abroad must be positioned within the work of the larger institution and students overall education In doing so it questions many current assumptions and stimulates thinking about the power of an integrative approach to education abroad to lead to lasting educative value An integrative approach requires that students be afforded multiple opportunities and ongoing support to draw connections with their learning abroad with other dimensions of their undergraduate education Chapters cover topics such as the additive value of integrating multiple HIPs with education abroad to span disciplinary boundaries and promote an array of soft or operational skills the importance of maintaining the disruptive quality of the encounter with the foreign to enrich study at home issues of commodification and reciprocity increasing access to study abroad to community college particularly adult populations facilitating students social and intellectual development identity formation and reflective practice rethinking orientation programming to emphasize the continuity of learning pre during and post education abroad asking fundamental questions about the purpose of education abroad to rethink assessment and its purposes the faculty role in the internationalization of the curriculum and developing more intentional relationships with in field partners and international educational organizations to more effectively connect leaning abroad with other dimensions of undergraduate education For everyone involved in international education whether SIOs faculty department chairs or deans the critical questions and new perspectives offered here will inform and shape the growing movement to integrate education abroad with the overall undergraduate experience
