Studies in Contemporary Jewry Jonathan Frankel, 1998-02-05 Was the Holocaust a

natural product of a long German history of Anti-Semitism Or were the Nazi policies simply a wild mutation of history not necessarily connected to the past Or does the truth lie somewhere in between This latest volume in the acclaimed Studies in Contemporary Jewry series edited by internationally known scholars at the Hebrew University in Jerusalem presents essays on the origins of the Holocaust The works in this volume are diverse in scope and opinion ranging from general philosophical discourses to detailed analyses of specific events and often reflecting the divergent ideologies and methods of the contributors But each adds to the whole and the result is a fascinating panorama that is sure to be indispensable to all students and scholars of the subject

The Crypto-Jewish Mashhadis Hilda Nissimi, 2006-12-01 This book tells the little known story of a fascinating crypto Jewish community through two centuries and three continents Beginning as a precarious settlement of a few families in mid 18th century Mashhad an Islamic holy city in northern Iran the community grew into a closely knit group in response to their forced conversion to Islam in 1839 Muslim hostility and a culture of memory sustained by intra communal marriages reinforced their separate religious identity vesting it in strong family and communal loyalty Mashhadi women became the main agents of the cultural transmission of communal identity and achieved social roles and high status uncharacteristic for contemporary Jewish and Muslim communities The Mashhadis maintained a double identity upholding Islam in public while tenaciously holding onto their Jewish identity in secret The exodus from Mashhad after 1946 relocated the communal center to Tehran later to Israel and after the Khomeini revolution to New York The relationship between the formation and retention of communal identity and memory practices with interconnected issues of religion and gender draws upon existing research on other crypto faith communities such as the Judeoconvertos the Moriscos and the French Protestants who through the special blend of memory faith and ethnicity emerged strengthened from their underground period For the immigration period the author challenges the old paradigm that modernity and religion are mutually exclusive The book also explores the sometimes uncomfortable yet intimate relationships that exist between seemingly incompatible ways of seeing the past both secular and religious

Reconciling Justice Salim J. Munayer, 2024-07-05 Christians too often disregard the depth and thoughtfulness of Jewish Muslim and Middle Eastern Christian concepts of justice To fill this lack this book explores the rich development of justice within each Abrahamic faith as it relates specifically to the Palestinian Israeli context From a uniquely Palestinian Christian perspective this book offers a theological framework through the concept of reconciling justice to facilitate better understanding for multiethnic political and religious encounters as a prophetic imagination for peace and reconciliation in the region
