Dot.Bomb Australia Kate Askew,2011 Google became a verb countries waged war games in the new digital universe and WikiLeaks sent shockwaves through a superpower We got to this point from a place that was called the dot com bubble Few booms in Australia have been faster or more furious than this bubble The brightest and best investors dived in technology geeks grew into overnight millionaires and miners stopped digging dirt and started surfing the net The market surged and crashed as the dot com bubble became the dot com bomb Australia witnessed a truly extraordinary efflorescence of unrestrained investment fervour Tagged as irrational exuberance by Alan Greenspan during the boom s formative period it became a wild moment of fin de siecle and millennial madness A new way of valuing companies on cash flow entirely rather than boring old profitability was invented to match the new technology in play What began with internet services and telecom start ups stretched to any kind of business that could be sold on the net from Balmain bugs to sex toys Some entrepreneurs jumped off the rollercoaster as millionaires more stayed on crashed or sank without trace While there have been a number of books in the USA on this extraordinary historical period this is the first comprehensive colourful telling of the wild Australian ride And looking back we learn that while the internet promised to level the business playing field it has in fact done the opposite as the market dominance of Google Apple and Facebook attest **The Way We Work** Regina Fazio Maruca,2007-12-30 From corner office to 24 7 the world of work has permeated every facet of our culture The Way We Work explores in over 150 A Z entries the origins and impact of the concepts ideas fads and themes have become part of the business vernacular shedding light on the dynamic ways in which business and society both influence and reflect each other Assessing the evolving business environment in the context of technology development globalization and workplace diversity The Way We Work covers the gamut of business related topics including Crisis Management Outsourcing and Whistleblowing as well as popular subjects such as Casual Friday Feng Shui and Napster **EBOOK: Investments - Global edition** Zvi Bodie,Alex Kane,Alan Marcus,2014-03-16 We are pleased to present this Global Edition which has been developed specifically to meet the needs of internationalInvestment students A market leader in the field this text introduces major issues of concern to all investors and places emphasis on asset allocation It gives students the skills to conduct a sophisticated assessment of watershed current issuesand debates Bodie Investments blend of practical and theoretical coverage combines with a complete digital solution to help your students achieve higher outcomes in the course *Digital Humanities and the Cyberspace Decade, 1990-2001* Claire Warwick,2024-10-03 Setting out a history of cyberspace and its relationship with the discipline that was to become digital humanities this book is an account of an often forgotten period of internet history in the 1990s when this medium was in its infancy It provides a detailed account of the concepts of cyberspace and the virtual which were characteristic of a perception that using the internet allowed users to enter a separate space from everyday life a world elsewhere In doing so it argues that this libertarian idea of the internet framed it as a new frontier where the rules of the

everyday world did not and should not apply and where the individual could find freedom These early norms and the regrettable lack of regulation that was a consequence of them this book argues contributed to many of current issues with internet media including of toxic communication disinformation and over commercialisation
