## **Drawing The Line Science And The Case For Animal Rights:**

Drawing The Line Steven M. Wise, 2002-05 More than just a book about animal rights this work is about equality liberty freedom and justice expressed within a scientific religious legal and philosophical framework **Animal Rights** Cass R. Sunstein, Martha C. Nussbaum, 2004-04-01 Cass Sunstein and Martha Nussbaum bring together an all star cast of contributors to explore the legal and political issues that underlie the campaign for animal rights and the opposition to it Addressing ethical questions about ownership protection against unjustified suffering and the ability of animals to make their own choices free from human control the authors offer numerous different perspectives on animal rights and animal welfare They show that whatever one's ultimate conclusions the relationship between human beings and nonhuman animals is being fundamentally rethought This book offers a state of the art treatment of that rethinking *Rekindling the Waters* Leah Lemieux, 2009 This book is essential reading for anyone who loves dolphins It reveals the truth about swimming with dolphins

**The Science of Good and Evil** Michael Shermer, 2005-01-02 Explores how and why people made the leap from social primate to moral primate discussing how humans transformed the moral sentiments displayed in many primate species into ethical principles **Animal Sacrifice and Religious Freedom** David M. O'Brien, 2004 The Santeria religion of Cuba the Way of the Saints mixes West African Yoruba culture with Catholicism Similar to Haitian voodoo Santeria has long practiced animal sacrifice in certain rites But when Cuban immigrants brought those rituals to Florida local authorities were suddenly confronted with a controversial situation that pitted the regulation of public health and morality against religious freedom After Ernesto Pichardo established a Santeria church in Hialeah in the 1980s the city of Hialeah responded by passing ordinances banning ritual animal sacrifice Although on the surface those ordinances seemed general in intent they were clearly aimed at Pichardo's church When Pichardo subsequently sued the city a federal court ruled in the latter's favor in effect privileging the regulation of public health and morality over the church's free exercise of its religion The U S Supreme Court heard Pichardo's appeal in 1993 and unanimously decided that the city had overstepped its bounds in targeting this particular religious group however the court was sharply divided regarding the basis of its decision Three concurring opinions registered distinctly different views of the First Amendment the limits of government regulation and the religious freedom of minorities In the end the nine justices collectively concluded that freedom of religious belief was absolute while the freedom to practice the tenets of any faith were subject to non discriminatory local regulations David O'Brien one of America's foremost scholars of the Court now illuminates this controversy and its significance for law government and religion in America His lively account takes us behind the scenes at every stage of the litigation to reveal a riveting case with more twists and turns than a classic whodunit Ranging with equal ease from primitive magic to municipal politics and to the most arcane points of constitutional law O'Brien weaves a compelling and instructive tale with a fascinating array of politicians lawyers jurists civil libertarians and animal rights advocates Offering sharp insights into the key issues and

personalities he highlights cultural clashes large and small while maintaining a balance for both the needs of government and the religious rights of individuals The Santeria case reaffirmed that our laws must be generally applicable and neutral and may not discriminate against particular religions Tracing the path to that conclusion *Animal Sacrifice and Religious Freedom* provides a provocative and learned account of one of the most unusual and contentious religious freedom cases in American history

*The Line* James Boyle,2024-10-22 How AI will challenge our ideas about personhood Chatbots like ChatGPT have challenged human exceptionalism we are no longer the only beings capable of generating language and ideas fluently But is ChatGPT conscious Or is it merely engaging in sophisticated mimicry And what happens in the future if the claims to consciousness are more credible In *The Line* James Boyle explores what these changes might do to our concept of personhood to the line we believe separates our species from the rest of the world but that also separates persons with legal rights from objects The personhood wars over the rights of corporations and animals over the question of when life begins and ends have always been contentious We've even denied the personhood of members of our own species How will those old fights affect the new ones and vice versa Boyle pursues these questions across a dizzying array of fields He discusses moral philosophy and science fiction transgenic species nonhuman animals the surprising history of corporate personality and AI itself Engaging with empathy and anthropomorphism courtroom battles on behalf of chimps and doom laden projections about the threat of AI *The Line* offers fascinating and thoughtful answers to questions about our future that will arrive sooner than we think

*Animal Ethics and Animal Law* Andrew Linzey,Clair Linzey,2022-11-07 Animal law is a growing discipline as is animal ethics In this wide ranging book scholars from around the world address the intersections between the two Specifically this collection focuses on pressing moral issues and how law can protect animals from cruelty and abuse A project of the Oxford Centre for Animal Ethics the book is edited by the Oxford Centre's directors Andrew Linzey and Clair Linzey and features contributions from many of its fellows Divided into three sections the work explores historical perspectives and ethical legal issues such as personhood and property before focusing on five practical case studies The volume introduces readers to the interweaving between these subjects and should act as a spur to further interdisciplinary work

**New Scientist and Science Journal** ,2002 **Animal Rights** Shasta Gaughen,2005 This anthology explores issues in the animal rights debate today including whether or not animals should have the same rights as people the debate over animal rights in the food industry and the ethics of animal experimentation

**The Book of the Mirror** Miranda Anderson,2007 The essays in this book are gathered together from the realms of art literature history archaeology philosophy and science Together they weave a picture that gives us new insights into the mirror as a material object and as an image in art and texts This interdisciplinary and innovative book raises important issues about the material life of an object and its intimate interrelations with socio cultural imagery Perceptions of the workings of our cognitive processes and of our subjectivity are shown to be dynamically interwoven with the technological and socio cultural matrices of particular periods

whilst longer term continuities in the understanding and employment of the mirror reflect underlying continuities in the capacities and constraints of mirrors and of human subjects This book demonstrates the active role imagery and technologies have always played in our thoughts lives and worlds European Science Editing ,2002 *International Bibliography of Book Reviews of Scholarly Literature Chiefly in the Fields of Arts and Humanities and the Social Sciences* ,2002 Animal Rights William Dudley,2006 Presents differing arguments on such topics as animal rights what constitutes ethical treatment of animals and using animals in scientific experimentation *Temple Law Review* ,2006 Magill's Medical Guide Anne Chang,2008 Covers diseases disorders treatments procedures specialties anatomy biology and issues in an A Z format with sidebars addressing recent developments in medicine and concise information boxes for all diseases and disorders

**Environmental Ethics** ,2008 **Journal of Animal Law** ,2010 **Contemporary Authors** Lisa Kumar,2004-07 A biographical and bibliographical guide to current writers in all fields including poetry fiction and nonfiction journalism drama television and movies Information is provided by the authors themselves or drawn from published interviews feature stories book reviews and other materials provided by the authors publishers **Current Law Index** ,2005 **The Publishers Weekly** ,2003
