Paprika Yasutaka Tsutsui,2013-02-12 Widely acknowledged as Yasutaka Tsutsui s masterpiece *Paprika* unites his surreal quirky imagination with a mind bending narrative about a psychiatric institute that has developed the technology to invade people s dreams When prototype models of a dream invading device go missing at the Institute for Psychiatric Research it transpires that someone is using them to drive people insane Threatened both personally and professionally brilliant psychotherapist Atsuko Chiba has to journey into the world of fantasy to fight her mysterious opponents As she delves ever deeper into the imagination the borderline between dream and reality becomes increasingly blurred and nightmares begin to leak into the everyday realm The scene is set for a final showdown between the dream detective and her enemies with the subconscious as their battleground and the future of the waking world at stake *Dream Detective* Katrina Rose,2014-05-31 Up until this spring I have never flown back through time and space in some sort of dream machine to catch a glimpse of this woman I am convinced that I did not know her in her lifetime and our paths have never crossed You see I am fairly certain this woman is dead and I have been transported to the year 1983 My name is Abigail Morrison when I tell my story to others many times their first reaction is to gasp but mostly they want to know how I survived being possessed My house was beginning to scare the hell out of me from all of the spirit activity yet I cannot leave when I m convinced my house won t let me The words the stranger in the library blurted out to me were true Someone is trying to get your attention She knowing something about my house is creepier than the spirit trying to attack me and I wonder if the word is out in town that I m onto something The thought of my house having up to ten spirits caught me utterly off guard Having the wind knocked out of me last night also caught me by complete surprise I felt it enter but I didn t feel it leave This scares the shit out of me I can t get the gun out of my head or maybe I should say the lack of gun The digital clock above the bar read 7 00 p m I knew it was time for me and the spirit posing to be me to leave the smoke filled tavern It s hard to say how I feel about everything my ribs ache and I find myself looking for an attorney Never in a million years did I think this would happen to me It was 2002 when I began to dream of the drug dealers wife found dead on the railroad tracks except her dream told me something else Although *Dream Detective* is fiction it is based on true events and how I interpreted my dreams premonitions the paper trail and the chatter from the town folk on what could have happened Memorial Weekend in 1983 **The Secret Telephone** William Le Queux,1921 Monster, She Wrote Lisa Kröger,Melanie R. Anderson,2019-09-17 Meet the women writers who defied

convention to craft some of literature's strangest tales from Frankenstein to The Haunting of Hill House and beyond. Frankenstein was just the beginning; horror stories and other weird fiction wouldn't exist without the women who created it. From Gothic ghost stories to psychological horror to science fiction, women have been primary architects of speculative literature of all sorts. And their own life stories are as intriguing as their fiction. Everyone knows about Mary Shelley, creator of Frankenstein, who was rumored to keep her late husband's heart in her desk drawer. But have you heard of Margaret Madge Cavendish, who wrote a science fiction epic 150 years earlier and liked to wear topless gowns to the theater? If you know the astounding work of Shirley Jackson, whose novel *The Haunting of Hill House* was reinvented as a Netflix series, then try the psychological hauntings of Violet Paget, who was openly involved in long-term romantic relationships with women in the Victorian era. You'll meet celebrated icons Ann Radcliffe, V. C. Andrews, forgotten wordsmiths Eli Colter, Ruby Jean Jensen, and today's vanguard Helen Oyeyemi. Curated reading lists point you to their most spine-chilling tales. Part biography, part reader's guide, the engaging write-ups and detailed reading lists will introduce you to more than a hundred authors and over two hundred of their mysterious and spooky novels, novellas, and stories. Madeline Dreams, R.A. Bates, 2021-05-23. Have you ever wished that your dreams could come true? Well, Madeline was born with a genetic disorder that allows her dreams to come into existence. Doctors and well-known researchers have given this disorder the title *Dremalatisis*. But Madeline doesn't dream about fame, riches, or fancy things; she dreams about causing harm, destruction, and death. So if you end up in one of Madeline's dreams, it may very well be the last thing you find yourself in. In this page-turning suspense thriller, Madeline will have you thinking twice about how you treat people, because you may unwittingly come across someone with this disorder and end up in one of their dreams. Is it material or immaterial, mortal or immortal? How is it connected with a body? Has it a particular seat in any particular body, as the brain does? Is consciousness synonymous with mind? Is it eternal and non-local? These questions have interested thinkers for many centuries. It is the object of this book to demonstrate, through a series of cases reported across the world at various times, relating to many curious, mind-related phenomena like the creation of mental entities, the imprints of indelible images on the human body, stigmata, birthmarks, and bodily deformities corresponding to the injuries sustained in the previous life, thought photography, materialization experiments, etc., that the human mind can bring into being thought forms and can exteriorize them, giving them some objective consistency.
