Private Prisons Charles H. Logan,1990 American prisons and jails are overflowing with inmates To relieve the pressure courts have imposed fines on overcrowded facilities and fiscally strapped governments have been forced to release numerous prisoners prematurely In this study noted criminologist Charles Logan makes the case for commercial operation of prisons and jails as an alternative to the government s monopoly On philosophical economic legal and practical grounds Logan argues a compelling case for the private and commercial operation of prisons He critically examines all objections raised by opponents and concludes that while private prisons face many potential problems they do so primarily because they are prisons not because they are private Historically the record of private ownership and operation of corrections facilities has been bleak ridden with political corruption physical abuse of prisoners and the single minded pursuit of profits This study demonstrates that this need not be the case Critiquing the tendency to contrast private prisons with a hypothetical ideal Logan instead compares them with existing public institutions arguing that the potential problems attributed to private prisons are experienced by their public counterparts The work examines ten sets of issues including the propriety cost security and quantity of prisons to set out a strong case for the viability of proprietary prisons
