FOR WRIT Reading Appalachia from Left to Right Carol Mason,2009 In Reading Appalachia from Left to Right Carol
Mason examines the legacies of a pivotal 1974 curriculum dispute in West Virginia that heralded the rightward shift in
American culture and politics At a time when black nationalists and white conservatives were both maligned as extremists for
opposing education reform the wife of a fundamentalist preacher who objected to new language arts textbooks featuring
multiracial literature sparked the yearlong conflict It was the most violent textbook battle in America inspiring mass marches
rallies by white supremacists boycotts by parents and strikes by coal miners Schools were closed several times due to arson
and dynamite while national and international news teams descended on Charleston A native of Kanawha County Mason
infuses local insight into this study of historically left leaning protesters ushering in cultural conservatism Exploring how
reports of the conflict as a hillbilly feud affected all involved she draws on substantial archival research and interviews with
Klansmen evangelicals miners bombers and businessmen a who like herself were residents of Kanawha County during the
dispute Mason investigates vulgar accusations of racism that precluded a richer understanding of how ethnicity race class
and gender blended together as white protesters set out to protect our children s souls In the process she demonstrates how
the significance of the controversy goes well beyond resistance to social change on the part of Christian fundamentalists or a
cultural clash between elite educators and working class citizens The alliances tactics and political discourses that emerged
in the Kanawha Valley in 1974 crossed traditional lines inspiring innovations in neo Nazi organizing propelling Christian
conservatism into the limelight and providing models for women of the New Right **Union List of Audiovisuals in the**
