*The History of Dream Catcher* Dream Catcher Designs,2023-01-26 A dream catcher is a craft object traditionally made by Native Americans It is a hoop often made of willow that is woven with a web of string or cord and decorated with feathers and beads The dream catcher is said to filter out bad dreams allowing only good dreams to pass through to the sleeper The good dreams are said to slide down the feathers to the sleeper while the bad dreams are trapped in the webbing and destroyed by the morning light Dream catchers are typically hung above a person s bed and are believed to protect the sleeper from nightmares They are often given as gifts to children or loved ones to protect them while they sleep The Ojibwe people an indigenous people of North America have a longstanding tradition of making and using dream catchers The legend behind the dreamcatcher says that the spider woman Asibikaashi in the Ojibwe culture would visit the people in their dreams and take away the bad dreams and give good dreams The dreamcatcher is said to have originated with the Ojibwe people but it has since been adopted by other Native American tribes and cultures Dreamcatchers are made in different sizes but most commonly are circular with a diameter of around 6 8 inches The hoop is usually made of willow which is bent and woven together to form a circular shape The webbing is then woven through the hoop and the dreamcatcher is decorated with feathers and beads The feathers are said to represent the breath of life and the beads are said to represent the tears of joy The dreamcatcher is considered a sacred object that should be treated with respect Dreamcatcher has become a popular decorative item and many people hang it in their homes to bring good luck peace and harmony It has also been used as a symbol of cultural appropriation Many people have started to use it without understanding its significance and meaning in the Native American culture
