Warum feiern die verschiedenen christlichen Kirchen das Abendmahl immer noch getrennt In der Auseinandersetzung um diese Grundfrage des kumenischen Dialogs spielen immer wieder zwei Begriffe eine wichtige Rolle gegenseitige Anerkennung und Rezeption Aufnahme Annahme Es geht letztlich um die Anerkennung der jeweils anderen Kirchen als Ausdruck oder Form der einen Kirche Jesu Christi Diese ist aber nur möglich wenn alle beteiligten Seiten sich in einem Rezeptionsprozess die gemeinsam formulierten Einsichten zu eigen machen Der Band dokumentiert die Vorträge der 19. Wissenschaftlichen Konsultation der Societas Oecumenica Europäische Gesellschaft für kumenische Forschung die sich aus verschiedenen Perspektiven und mit verschiedenen Ansätzen mit diesen beiden Begriffen und ihrer Bedeutung bzw. ihrem Potenzial für die kumenische Bewegung befassen Why do the different Christian churches still celebrate the Lord's Supper separately The discussion about this fundamental issue of ecumenical dialogue keeps coming back to two concepts that play an important role mutual recognition and reception In the end it is about recognition of the other churches as an expression or form of the one church of Jesus Christ This is only possible however if all the parties involved accept within a process of reception the insights they have formulated together This volume documents the papers given at the 19th academic consultation of Societas Oecumenica European Society for Ecumenical Research and which deal with these two concepts from different perspectives and approaches and their importance or potential for the ecumenical movement

**Christianity and the Culture of Relativism in the Anthropologies of Joseph Ratzinger and Stanley Hauerwas** Charles Ssenyondo STL STD, 2012-12-17 Joseph Ratzinger rates relativism as the greatest challenge of the Church today What he describes is not a new phenomenon but his theology highlights its origins and magnitude Stanley Hauerwas fights the same battle on the Protestant side This book attempts to discover and streamline their deliberations showing their meeting points and where they differ and remedies they offer to combat the crisis It seeks to argue out the best response to relativism that can most appropriately benefit both Western and African Christendom Despite being a Western phenomenon relativism is no longer an exclusively Western problem It is rather imposing itself as the new world culture depicting all other cultures and perspectives as inferior Ratzinger christened this the Dictatorship of Relativism while Hauerwas calls it Policing of Christian Values While Ratzinger's greatest worry is relativism's denial of Truth mostly from outside the ekklesia for Hauerwas relativism is not a force from without of the Church but part and parcel of the people's modern ways of life in which Christian values are persecuted in the name of peaceful existence Both perspectives point at a crisis of cultures where the past is rejected and the future disconnected from the present which trend inevitably leads to disintegration a leap into the dark While the pre-Modern world sought God the Modern world sought knowledge The contemporary world seeks relativism But all is not lost The truth can still be found through the word of God and Christian

culture

**Is God Christian?** D. Perman Niles,2017-10-01 Is God Christian Christian Identity in Public Theology An Asian Contribution explores the theological efforts of the current generation as a collective enterprise to survey methods that in the arena of public theology confront and reject the assertion that God is Christian or there is a Christian god among other gods The theological methods discussed in this book are not concerned narrowly with problems in Christian theology but rather with challenges posed for Christian theology in the wider arena of social and political life in Asia

**Beyond Decline** Robin Gill,1988 Perhaps the most obvious thing one can say about the churches in Britain today is that they are declining The facts are evident However responses to that decline vary considerably and Robin Gill parish priest and theologian as well as sociologist has written to challenge some of them Dr Gill begins by examining the way in which decline has led to what he argues is a disastrous anti intellectualism within the churches Then he goes on to examine ways in which declining churches are tempted to compensate by pressing for general assemblies and synods to make specific moral and social pronouncements A third chapter sets out alternative and sometimes incompatible options for Christians to engage in moral and social issues A fourth chapter examines competing models of evangelism and church growth In the fifth chapter Dr Gill analyses clergy deployment within declining British churches Concluding that churches are not deploying clergy in the most effective way to counter decline he suggests a radical model for deployment to edge the churches beyond decline The book ends with a vision of faith beyond decline

**Beyond Individualism** Donald L. Gelpi,1989 Essays discuss strategies for counteracting the moral and social breakup caused by individualism

The Physics of Angels Matthew Fox,Rupert Sheldrake,1996-09-06 Visionary priest Matthew Fox and radical biologist Rupert Sheldrake turn to the Christian mystics to discover profound connections between modern science and the re-emerging belief in angels The exchange between the two thinkers aims to restore dignity and gravity to the concept of the angel
