**Beyond Individualism** Michael J. Piore, 1995 Michael Piore develops a new social theory that balances individual preferences against the claims and responsibilities of the community By explaining the role of groups in economic and social life this theory makes sense of a host of perplexing social phenomena and policy issues [Beyond Individualism](#) George Rupp, 2015-09-01 In many places around the world relations between ethnic and religious groups that for long periods coexisted more or less amicably are now fraught with aggression and violence This trend has profound international implications threatening efforts to narrow the gap between rich and poor Underscoring the need for sustained action George Rupp urges the secular West to reckon with the continuing power of religious conviction and embrace the full extent of the world's diversity While individualism is a powerful force in Western cultures and a cornerstone of Western foreign policy it elicits strong resistance in traditional communities Drawing on decades of research and experience Rupp pushes modern individualism beyond its foundational beliefs to recognize the place of communal practice in our world Affirming the value of communities and the productive role religion plays in many lives he advocates new solutions to such global challenges as conflicts in the developing world income inequality climate change and mass migration [Beyond Individualism](#) Dane Rudhyar, 1979

**Beyond Individualism** Gordon Wheeler, 2013-04-15 In this pathbreaking and provocative new treatment of some of the oldest dilemmas of psychology and relationship Gordon Wheeler challenges the most basic tenet of the West cultural tradition the individualist self Characteristics of this self model are our embedded yet pervasive ideas that the individual self precedes and transcends relationship and social field conditions and that interpersonal experience is somehow secondary and even opposed to the needs of the inner self Assumptions like these Wheeler argues which are taken to be inherent to human nature and development amount to a controlling cultural paradigm that does considerable violence to both our evolutionary self nature and our intuitive self experience He asserts that we are actually far more relational and intersubjective than our cultural generally allows and that these relational capacities are deeply built into our inherent evolutionary nature His argument progresses from the origins and lineage of the Western individualist self model into the basis for a new model of the self relationship and experience out of the insights and implications of Gestalt psychology and its philosophical derivatives deconstructivism and social constructionism From there in a linked series of experiential chapters each of them a groundbreaking essay in its own right he takes up the essential dynamic themes of self experience and relational life interpersonal orientation meaning making and adaptation support shame intimacy and finally narrative and gender culminating in considerations of health ethics politics and spirit The result is a picture and an experience of self that is grounded in the active dynamics of attention problem solving imagination interpretation evaluation emotion meaning making narration and above all relationship By the final section the reader comes away with a new sense of what it means to be human and a new and more usable definition of health [Beyond Individualism](#) Jack Crittenden, 1992-08-13 In the

examination of the conception of human nature a duality is commonly perceived the liberal self as atomistic self contained even selfish and the communitarian self as socially situated and defined through its environment Crittenden argues that neither view is acceptable drawing on recent psychological research to expound on a theory of compound individuality This work includes a discussion of the compound individual as the self of liberalism as well as a discussion of the sort of political organization that can generate personal identity constituted by liberal autonomy and communitarian sociality

*Beyond Individualism* Lois Parkinson Zamora, 2026-01-11 A sweeping analysis of archetypal realism in Latin American literature and art *Beyond Individualism* examines the portrayal of collective identities over two centuries in Latin American literature and visual art Lois Parkinson Zamora shows that many authors and artists are less concerned with singular selves than with selves in relation less with individual autonomy than with communal affiliation Their works sometimes situated under the labels Neobaroque magical realism Surrealism Expressionism and idealism resist the kind of psychological realism typical of European and North American novels moving instead toward a wholly new kind of fiction Zamora calls this new Latin American form archetypal realism because its characters represent entities larger than themselves They may embody entire communities cultures families religious orders or ideal planets Through deft readings of collective characters in fiction by Gabriel Garc a M rquez Isabel Allende Jorge Luis Borges and more alongside the art of Diego Rivera Remedios Varo and Xul Solar Zamora reveals a modernity based not on Enlightenment conceptions of selfhood but on community collectivity and kinship

**The Creative Self** Mari Ruti, Gail M. Newman, 2025-01-21 Be the best you can be Practically from the moment we are born we are taught to optimize our lives to devote ourselves to increasing our productivity and efficiency which we are told will make us happier and more successful The imperative of constant self improvement however drains us dry even as it promises to build us up *The Creative Self* delves into the hegemony of neoliberal self optimization and turns to psychoanalysis in search of an alternative In paired chapters Mari Ruti and Gail M Newman examine the works of the psychoanalysts Marion Milner and Donald W Winnicott They provide deeply personal accounts of how these thinkers resonate with day to day life exploring modes of selfhood that subtly but profoundly resist the lure and escape the trap of competitive individualism Milner urges us to relinquish the ego in the face of loss and lack and Winnicott asks us to accept the paradoxes of the self instead of demanding their resolution Together their insights help us flourish where neoliberal self improvement would stifle us Combining the intellectual the personal and the political from two perspectives that converge and diverge in striking ways this book offers an antidote to transactional individualism and envisions forms of creative living beyond its confines

**Beyond Individualism-collectivism** Kean Hong Chew, 1996 *Beyond Individualism* DONALD L. GELPI, Donald L Gelpi, S.J., Ph.D., 1989-10-31 *Beyond Foundationalism* Stanley James Grenz, John R. Franke, 2001-01-01 Grenz and Franke provide a methodological approach for doing theology in the postmodern world They call for a theological method that moves beyond the Enlightenment way of ordering and understanding information foundationalism They propose

a theological method that takes seriously the Spirit tradition and contemporary culture while stressing trinitarian structure community and eschatology

*Becoming a Cosmopolitan* Jason D Hill, 2023-06-14 The philosopher and author of *Beyond Blood Identities* offers a new paradigm of persona freedom and moral self possession As a Jamaican immigrant arriving in the United States at the age of twenty Jason Hill noticed how often Americans identified themselves in terms of race and ethnicity He observed for example the reluctance of West Indians to join black causes for fear of losing their identity He began to ask himself what sort of world he wanted to live in a quest that in time led him to the idea of the cosmopolitan In *Becoming a Cosmopolitan* Jason D Hill argues that we need a new understanding of the self He revives the idea of the cosmopolitan the person who identifies the world as home Arguing for the right to forget where we came from Hill proposes a new moral cosmopolitanism for the new millennium
