## **Beyond Metafiction:**

**Beyond Metafiction** David G. Shepherd, 1992 Although metafiction has been the subject of much critical and theoretical writing this is the first full length study of its place in Soviet literature Focusing on metafictional works by Leonid Leonov Marietta Shaginyan Konstantin Vaginov and Veniamin Kaverin it examines within a broadly Bakhtinian theoretical framework the relationship between their self consciousness and their cultural and political context The texts are shown to challenge notions about the nature and function of literature fundamental to both Soviet and Anglo American criticism In particular although metafictional strategies may seem designed to confirm assumptions about the aesthetic autonomy of the literary text their effect is to reveal the shortcomings of such assumptions The texts discussed take us beyond conventional understandings of metafiction by highlighting the need for a theoretically informed account of the history and reception of Soviet literature in which the inescapability of politics and ideology is no longer acknowledged grudgingly but is instead celebrated

**The Oxford Handbook of Global Realisms** Vaysman, 2025-11-04 Realism is an artistic practice that aims to faithfully represent reality Historically it has been practiced across different media from early pictorial art and epic oral narratives through literature and visual arts to film music and digital media However an understanding of what it means to faithfully represent reality is not universal rather it varies from culture to culture The Oxford Handbook of Global Realisms approaches realism as a transnational transhistorical and intermedial global phenomenon It brings the diversity of global realisms to the fore showcasing previously underrepresented and marginalized theories practices forms and media of realist cultural production

**Beyond Metafiction** David G. Shepherd, 1992 A study of metafiction fiction in which an important theme is its own fictional status in Soviet literature It questions previous treatments of metafiction and suggests a framework for new approaches to Soviet literary history

**Landscapes of Language: Richard Brautigan's Fiction** John Tanner, 2013-10-01 In the late 1960s and early 1970s Richard Brautigan was a counter cultural celebrity a writer that the would be hip just had to read The problem was that his fame did not rest on the considerable literary virtues of his work but to a great extent on a hippie image exemplified by the photograph of him on the cover of his breakthrough novel Trout Fishing in America When nobody wanted tie dye shirts and gurus any more they didn't want Brautigan either Academics have followed the public's lead this is the first book length study of Brautigan in English for 30 years Its purpose is to reclaim Brautigan's reputation Dr John Tanner analyses Brautigan's fiction against the background of the cultural and literary upheavals from which it emerged and demonstrates that Brautigan is no mere Sixties curio but an innovative and vibrant American voice ignored for far too long

**The Intellectual Devotional** David S. Kidder, Noah D. Oppenheim, 2021-01-19 Now updated to reflect current events this daily digest of intellectual challenge and learning will arouse curiosity refresh knowledge expand horizons and keep the mind sharp Millions of Americans keep bedside books of prayer and meditative reflection collections of daily passages to stimulate spiritual thought and advancement The Intellectual Devotional is a

secular version of the same a collection of 365 short lessons to inspire and invigorate every day of the year Each daily digest of wisdom is drawn from one of seven fields of knowledge history literature philosophy mathematics and science religion fine arts and music Impress your friends by explaining Plato s Cave Allegory memorize Sonnet 18 and unlock the mystery of how batteries work Daily readings range from important passages in literature to basic principles of physics from pivotal events in history to images of famous paintings with accompanying analysis The book s goal is to refresh knowledge we ve forgotten make new discoveries and exercise modes of thinking that are ordinarily neglected once our school days are behind us Offering an escape from the daily grind to contemplate higher things The Intellectual Devotional is a great way to awaken in the morning or to revitalize the mind before retiring in the evening Succeeding Postmodernism Mary K.

Holland,2013-04-25 While critics collect around the question of what comes after postmodernism this book asks something different about recent American fiction what if we are seeing not the end of postmodernism but its belated success Succeeding Postmodernism examines how novels by DeLillo Wallace Danielewski Foer and others conceptualize threats to individuals and communities posed by a poststructural culture of mediation and simulation and possible ways of resisting the disaffected solipsism bred by that culture Ultimately it finds that twenty first century American fiction sets aside the postmodern problem of how language does or does not mean in order to raise the reassuringly retro question of what it can and does mean it finds that novels today offer language as solution to the problem of language Thus it suggests a new way of reading antihumanist late postmodern fiction and a framework for understanding postmodern and twenty first century fiction as participating in a long and newly enlivened tradition of humanism and realism in literature **Literature Redeemed**

Nicolas Dreyer,2020-07-13 In the post Soviet period discussions of postmodernism in Russian literature have proliferated Based on close literary analysis of representative works of fiction by three post Soviet Russian writers Vladimir Sorokin Vladimir Tuchkov and Aleksandr Khurgin this book investigates the usefulness and accuracy of the notion of postmodernism in the post Soviet context Classic Russian literature renowned for its pursuit of aesthetic moral and social values and the modernism that succeeded it have often been seen as antipodes to postmodernist principles The author wishes to dispute this polarity and proposes post Soviet neo modernism as an alternative concept Neo modernism embodies the notion that post Soviet writers have redeemed the tendency of earlier literature to seek the meaning of human existence in a transcendent realm as well as in the treasures of Russia s cultural past **The Story of the Storyteller** Jean O'Bryan-Knight,2023-04-12

This book traces the history of an engaging character a writer who acts as the narrator and protagonist of three of Vargas Llosa s novels In La t a Julia y el escritor he recalls his apprenticeship in Historia de Mayta he reflects upon the practice of his craft and in El hablador he ponders the significance of his vocation That this fictional character closely resembles his flesh and blood creator only adds to his allure Because the three novels in question have such strong structural and thematic links it proves quite helpful to conceive of them as a trilogy Indeed the connections are so pronounced that a significant

synergistic effect results from considering the three together It is this effect that this volume brings light as it analyzes how each novel functions as a separate entity how these entities are integrated into a greater whole and how this whole fits into the wider picture of the Peruvian author s long and prolific literary career As students and scholars alike will find thinking in terms of a trilogy greatly enhances our understanding and appreciation of Vargas Llosa s rich narrative

**Essays in Poetics** ,2004 *Beyond the Metafictional Mode* Robert C. Spires,2014-07-15 The term metafiction invaded the vocabulary of literary criticism around 1970 yet the textual strategies involved in turning fiction back onto itself can be traced through several centuries In this theoretical critical study Robert C Spires examines the nature of metafiction and chronicles its evolution in Spain from the time of Cervantes to the 1970s when the obsession with novelistic self commentary culminated in an important literary movement The critical portions of this study focus primarily on twentieth century works Included are analyses of Unamuno s *Niebla* Jarn s s *Locura y muerte de nadie* and *La novia del viento* Torrente Ballester s *Don Juan Cunqueiro* s *Un hombre que se parec a a Orestes* and three novels from the self referential movement of the 1970s Juan Goytisolo s *Juan sin Tierra* Luis Goytisolo s *La colera de Aquiles* and Mart n Gait e s *El cuarto de atr s* Seeking a stronger theoretical basis for his critical readings Spires offers a sharpened definition of the term metafiction The mode arises he declares through an intentional violation of the boundaries that normally separate the worlds of the author the fiction and the reader Building on theoretical foundations laid by Frye Scholes Genette and others Spires also proposes a literary paradigm that places metafiction in a position intermediate between fiction and literary theory These theoretical formulations place Spires s book in the forefront of critical thought At the same time his full scale analyses of Spanish metafictional works will be welcomed by Hispanists and other students of world literature

*Irish Slavonic Studies* ,1993 Fabulation and Metafiction Robert Scholes,1979 **Galdós Beyond Realism** Timothy Michael McGovern,2004 Subversive Imaginations Nadezhda L. Peterson,1997-02-27 In response to the profound changes in Soviet society in recent years the author considers the demise of Soviet literature and the emergence of its Russian progeny through the prism of the writers engagement with fantasy Viewing the mutual interaction of Soviet Russian literary output with aspects of the dominant culture such as ideology and politics Nadya Peterson traces the process of mainstream literary change in the context of broader social change She explores the subversive character of the fantastic orientation its utopian and apocalyptic motifs and its dialogical relationship with socialist realism as it steadily gathered force in the latter Soviet decades The shattering of the mythic colossus did not put an end to these opposing forces but rather diverted them in various unexpected directions as the author explains in her concluding chapters on the new alternative literatures
