Beyond Control Status Offenders In The Juvenile Court:

Beyond Control Lee E. Teitelbaum, Aidan R. Gough, 1977 **Beyond Control** Lee E. Teitelbaum, 1977-06 *Juvenile Justice* Preston Elrod, R. Scott Ryder, 2005 Thoroughly updated and revised the Second Edition of *Juvenile Justice A Social Historical and Legal Perspective* offers readers a comprehensive volume on how the juvenile justice system works This book is designed to help readers understand the complexities of the present juvenile justice system by presenting a thorough examination of the social historical and legal context within which delinquency and juvenile justice occurs In addition to gaining valuable knowledge on the juvenile justice process readers will learn how the different parts of the process are interrelated how decisions made in one case influence future cases and the laws that direct juvenile justice policy

Handbook of Justice Research in Law Joseph Sanders, V. Lee Hamilton, 2007-05-08 Justice a word of great simplicity and almost frightening scope When we were invited to edit a volume on justice in law we joked about the small topic we had been assigned Often humor masks fear and this was certainly one of those times Throughout the project we found daunting the task of covering even a fraction of the topics that usually fall under the umbrella of justice research in law Ultimately the organization of the book emerged from the writing of it Our introductory chapter provides a road map to how the topics weave together but as is so often the case it was written last not first It was only when we had chapters in hand that we began to see how the many strands of justice research might be woven together Chapters 2 4 on the basic forms of justice procedural retributive and distributive are the lynchpin of the volume they provide the building blocks that permit us to think and write about each of the other substantive and applied chapters in terms of how they relate to the fundamental forms of justice In the large central section of the volume Chapters 5 9 the contributors address many ways in which the justice dimensions relate to one another Most important for law is the relationship of perceptions of procedural justice and the two types of substantive justice retributive and distributive **Parenthood in Modern Society** John Eekelaar, Petar Šarcevic, 2023-12-04 The rights and obligations of parenthood are central to most people's lives Yet their form and substance are caught up in the great demographic social and economic changes of the late twentieth century In this book specialists from 22 countries examine fundamental issues confronting parenthood these include social and biological conceptions of parenthood the legal and moral obligations of parenthood the legal and scientific establishment of parentage rights to parenthood including inter country adoption the effects on parent child relationships of family change the role of the state in family life the position of minorities and children's rights They are viewed within a global context and integrated in a commentary which looks forward to the future evolution of the law Status Offenders John P. Murray, H. Ted Rubin, 1983

Women and Crime Stacy L. Mallicoat, 2011-12-05 *Women and Crime A Text Reader* part of the text reader series in criminology and criminal justice incorporates contemporary and classic readings some including policy implications accompanied by student friendly authored text This unique format provides a theoretical framework and context for students
