Beyond Reason:

Reasoning beyond Reason Jeff Sellars, 2011-01-01 There is a seeming dichotomy in C S Lewis's writing. On the one hand we see the writer of argumentative works and on the other hand we have the imaginative poet. Lewis also found this dichotomy within himself. When he was a rationalist and atheist he found that these two sides of him were pulling in different directions. He believed that his rationalist side could not be reconciled with his imaginative side. Once he became a Christian he eventually found a means of marrying the two principally through story and myth. Within C S Lewis studies there is also a common conception of Lewis as a modern rationalist philosopher, i.e. a rationalist who thinks arguments and his arguments in particular are the last answer on the questions he undertakes. *Reasoning beyond Reason* attempts to take this view to task by placing Lewis back into his pre-modern context and showing that his sources and influences are classical ones. In this process Lewis is viewed through the idea that imagination and reason are connected in an intimate way they are different expressions of a single divine source of truth and there is an imagination already present upon which reason works. Lewis's transpositional view of imagination implicitly pushes towards a somewhat radical position: the imagination is to be seen as theological in its reliance upon something more than the merely material; it necessarily relies on a transcendent funding for its use and meaning. In other words the imagination is a well source for what we might normally label rational. *Leadership Beyond Reason* John Townsend, 2011-05-09 A human behavior expert reveals that what leaders know about themselves is more important than their leadership skills and job knowledge. Who we are on the inside can determine leadership success more than what we do or what we know. In *Leadership Beyond Reason* Dr Townsend explores the critical role of the leader's internal world: the world of passion, emotions, intuition, creativity, values, self-awareness, conscience, and spiritual life. Unveiling links between personal and organizational success or failure and the contents of a leader's heart, the author shows that leaders excel not just through skill and smarts but by connecting with others using competencies like curiosity, attention, reality assessment, distortion, detecting, relationship building, ownership, and living with ambiguity. This is the leadership book only a world-respected psychologist could have written and it is revolutionary in its insight. **Beyond Reason** Roger Fisher, Daniel Shapiro, 2005-10-06 Written in the same remarkable vein as *Getting to Yes*, this book is a masterpiece. Dr Steven R Covey, author of *The 7 Habits of Highly Effective People*, Winner of the Outstanding Book Award for Excellence in Conflict Resolution from the International Institute for Conflict Prevention and Resolution. In *Getting to Yes*, renowned educator and negotiator Roger Fisher presented a universally applicable method for effectively negotiating personal and professional disputes. Building on his work as director of the Harvard Negotiation Project, Fisher now teams with Harvard psychologist Daniel Shapiro, an expert on the emotional dimension of negotiation and author of *Negotiating the Nonnegotiable: How to Resolve Your Most Emotionally Charged Conflicts*. In *Beyond Reason*, Fisher and Shapiro show readers how to use emotions to turn a disagreement, big or small, professional or personal into an opportunity for mutual gain. **Faith, Reason, and**

Beyond Reason Mark J. Boone, 2024-07-16 The relationship between faith and reason is multifaceted Faith transcends reason in that it is more than reason alone can contain or fully guarantee yet it is neither unreasonable nor something to which reason is irrelevant and reason says some pretty fine things about it This volume updates nine previously published articles on faith and reason by a Christian philosopher who has been studying these matters for two decades alongside one new essay and a philosophical dialogue These articles explain and integrate key ideas on faith and reason including Alvin Plantinga's account of how Christian belief can be knowledge even without evidence defenses of faith from Augustine and William James accounts of empirical evidence for faith from different world religions the distinction between faith and sight in the New Testament the structure of the evidence for the authority of the Bible the idea that faith transcends reason because some articles of faith are beyond human comprehension even if we have evidence that they are true and the nature of faith as a total commitment beyond what the evidence alone can guarantee
