Setting Limits in the Classroom, 3rd Edition Robert J. Mackenzie,Lisa Stanzione,2010-07-20 Disruptive behavior power struggles lack of motivation attention deficit disorder at times the list of obstacles to teaching seems endless That s why thousands of teachers and child care providers have turned to the solutions in *Setting Limits in the Classroom* This fully updated and expanded third edition offers the most up to date alternatives to punishment and permissiveness moving beyond traditional methods that wear you down and get you nowhere Topics include Eliminating power struggles and handling disruptions quickly Establishing an effective environment for learning Using natural and logical consequences to support your rules Conducting proactive focused parent conferences New research and techniques for supporting special needs children With its new focus on younger students and special tools for handling strong willed children this edition offers schoolteachers the tools they need to gain control of their classrooms respectfully and effectively Changing Student Behavior by Linking Office Discipline Referrals to a Strategic Time-Out Process Dr. Howie Knoff,2007 Effective Positive Behavioral Support Systems PBSS consist of three interdependent components a teaching students prosocial interpersonal problem solving and conflict resolution skills using an evidence based social skills program b teacher grade level and building wide accountability processes that provide students meaningful incentives and consequences that motivate their prosocial behavior and c staff and administrative consistency such that student behavior is reinforced and responded to when inappropriate in a constant fashion Time out is an incredibly powerful intervention that is used almost universally in most elementary and some middle schools as part of the accountability component of the PBSS system Unfortunately Time Out often is used incorrectly and inconsistently in most schools thereby decreasing its potential impact for both staff and students This Electronic Book E Book describes the step by step school wide implementation of an educative approach to Time Out

When implemented across a school its potential to be used consistently by staff with students is enhanced When implemented as an educative approach its potential to motivate behavioral change and to successfully hold students accountable for their inappropriate behavior similarly is increased This E Book s objectives are to a sensitize readers as to the need for and benefits of a school wide accountability system b provide explicit instruction in how to implement the educative Time Out process and c discuss the outcomes when it is used effectively The E Book is intended for school based practitioners especially administrators who are implementing school wide PBSS programs More specifically the behavioral principles underlying the Time Out process will be discussed along with the four prerequisites that are needed prior to its school wide implementation and the intervention s integration into a set of school wide behavioral standards and expectations For example teachers and students need to understand the following facets of the Time Out process in order to successfully implement it the a Rationale behind the Time Out process b the Time Out Release and Return Language c Expected Behaviors and Responses to various Time Out prompts d the four Time Out levels and how students enter and exit these levels and e critical Decision Rules used throughout the process Teachers and administrators also need to know how to collect and use data from the Time Out process and to determine if the intervention is successful or whether other interventions are needed In the end if used correctly the Time Out process is an essential prerequisite component of a successful PBSS system Successful PBSS systems help to maximize students academic achievement create safe school environments and positive school climates increase and sustain effective classroom instruction and reach out to parents to increase their involvement in these important areas

Beyond Control Alan Bandstra, 2014-09-15. Even though classroom discipline problems may be reduced through behavior management, what can be done about the factors that drive misbehavior? Weeds like negativity, apathy, and unkindness are too slippery to be uprooted through consequences or incentive plans alone. A heart-centered classroom climate aims beyond exterminating the bad by striving to grow something more positive in its place. Combining insights from motivational theory, Scripture, and 25 years of classroom experience, Bandstra provides encouragement and advice to teachers who struggle with the attitudes of wayward children. Despite the serious nature of this topic, his narrative style makes the book easy to follow and fun to read.
