In a moment of recklessness Gervase Tregarth 6th Earl of Crowhurst swears he'll marry the next eligible lady to cross his path. Cloistered at his ancestral castle in Cornwall with nary a suitable woman for miles he never expects he'll have to fulfill his pledge at least not until the London Season begins. But then he meets his neighbor the very appealing Madeline Gascoigne. Years of secret service to the Crown have taught Gervase the value of always having a loophole: there will be no wedding if he and Madeline are incompatible in any way. So he sets out to prove that they would make a most dreadful match by luring her into his arms and ultimately his bed. From their very first kiss Gervase discovers that the headstrong and independent Madeline is no meek country miss and that the fire between them will burn long beyond that first seduction.

*Beyond Blood and Coercion* Yves Winter, 2009. This dissertation investigates and criticizes two common assumptions about violence in contemporary political theory and philosophy: that violence is mute and that it is instrumental. Through close readings of the works of Niccolò Machiavelli, Karl Marx, and Friedrich Engels, I argue that political violence has a semiotic character: that it involves the production of signs and meanings. These signs and meanings are not peripheral but central to the operations of political violence because the political effectiveness of violence is partially determined by its representation. Practices of representation regulate how political violence is received and understood by an audience, which is why political violence cannot be explained by reference to institutions alone. Rather, it must be interpreted in the context of these practices of representation. It calls therefore for a critical hermeneutic attentive to how meanings and signs circulate beyond violence's narrowly functional and instrumental dimensions and beyond the control of violence's wielders. My readings offer a model for such an interpretive approach for a critical hermeneutic that accounts for the semiotic aspects inherent in practices of political violence. My textual analyses ask how modes of representation and visibility organize particular formations of violence and produce political effects. By tracing the disseminations and dispersals of violence in Machiavelli's and Marx's texts, I challenge the conventional classification that separates political from non-political violence and I raise the question of what makes violence recognizable as political.

*Beneath the Veil of the Strange Verses* Jeremiah L. Alberg, 2013-01-01. Jeremiah Alberg's fascinating book explores a phenomenon almost every news reader has experienced: the curious tendency to skim over dispatches from war zones, political battlefields, and economic centers only to be drawn in by headlines announcing a late-breaking scandal. Rationally, we would agree that the former are of more significance and importance, but they do not pique our curiosity in quite the same way. The affective reaction to scandal is one both of interest and of embarrassment or anger at the interest. The reader is at the same time attracted to and repulsed by it. *Beneath the Veil of the Strange Verses* describes the roots out of which this conflicted desire grows and it explores how this desire mirrors the violence that undergirds the scandal itself. The book shows how readers seem to be confronted with a stark choice: either turn away from scandal completely or become enthralled and thus trapped by it. Using examples from philosophy, literature, and

the Bible Alberg leads the reader on a road out of this false dichotomy By its nature the author argues scandal is the basis of our reading it is the source of the obstacles that prevent us from understanding what we read and of the bridges that lead to a deeper grasp of the truth

**Things Hidden Since the Foundation of the World** René Girard, Jean-Michel Oughourlian, Guy Lefort, 2003-01-01 Presenting an original global theory of culture Girard explores the social function of violence and the mechanism of the social scapegoat His vision is a challenge to conventional views of literature anthropology religion and psychoanalysis Rene Gerard is the Andrew B Hammond Professor Emeritus of French Language Literature and Civilization at Stanford University USA
