Beyond the Gateway Elzbieta M. Gozdzia, Elzbieta M. Gozdzia, Susan Forbes Martin, 2005-01-01 A small but growing number of immigrants today are moving into new settlement areas such as Winchester Va Greensboro N C and Salt Lake City Utah that lack a tradition of accepting newcomers Just as the process is difficult and distressing for the immigrants it is likewise a significant cause of stress for the regions in which they settle Long homogeneous communities experience overnight changes in their populations and in the demands placed on schools housing law enforcement social services and other aspects of infrastructure Institutions have not been well prepared to cope Local governments have not had any significant experience with newcomers and nongovernmental organizations have been overburdened or simply nonexistent There has been a substantial amount of discussion about these new settlement areas during the past decade but relatively little systematic examination of the effects of immigration or the policy and programmatic responses to it *New Immigrant Communities* is the first effort to bridge the gaps in communication not only between the immigrants and the institutions with which they interact but also among diverse communities across the United States dealing with the same stresses but ignorant of each others responses whether successes or failures *Beyond the Gateway* Elzbieta M. Gozdzia, Micah N. Bump, 2005 A small but growing number of immigrants today are moving into new settlement areas such as Winchester Va Greensboro N C and Salt Lake City Utah that lack a tradition of accepting newcomers Just as the process is difficult and distressing for the immigrants it is likewise a significant cause of stress for the regions in which they settle Long homogeneous communities experience overnight changes in their populations and in the demands placed on schools housing law enforcement social services and other aspects of infrastructure Institutions have not been well prepared to cope Local governments have not had any significant experience with newcomers and nongovernmental organizations have been overburdened or simply nonexistent There has been a substantial amount of discussion about these new settlement areas during the past decade but relatively little systematic examination of the effects of immigration or the policy and programmatic responses to it *New Immigrant Communities* is the first effort to bridge the gaps in communication not only between the immigrants and the institutions with which they interact but also among diverse communities across the United States dealing with the same stresses but ignorant of each others responses whether successes or failures *The Oxford Handbook of the Politics of International Migration* Marc R. Rosenblum, Daniel J. Tichenor, 2012-06-28 Twenty nine specialists offer their perspectives on migration from a wide variety of fields political science sociology economics and anthropology *New Faces in New Places* Douglas S. Massey, 2008-02-01 Beginning in the 1990s immigrants to the United States increasingly bypassed traditional gateway cites such as Los Angeles and New York to settle in smaller towns and cities throughout the nation With immigrant communities popping up in so many new places questions about ethnic diversity and immigrant assimilation confront more and more Americans *New Faces in New Places* edited by distinguished sociologist

Douglas Massey explores today's geography of immigration and examines the ways in which native born Americans are dealing with their new neighbors. Using the latest census data and other population surveys, *New Faces in New Places* examines the causes and consequences of the shift toward new immigrant destinations. Contributors Mark Leach and Frank Bean examine the growing demand for low wage labor and lower housing costs that have attracted many immigrants to move beyond the larger cities. Katharine Donato, Charles Tolbert, Alfred Nucci, and Yukio Kawano report that the majority of Mexican immigrants are no longer single male workers but entire families who are settling in small towns and creating a surge among some rural populations long in decline. Katherine Fennelly shows how opinions about the growing immigrant population in a small Minnesota town are divided along socioeconomic lines among the local inhabitants. The town's leadership and professional elites focus on immigrant contributions to the economic development and the diversification of the community while working class residents fear new immigrants will bring crime and an increased tax burden to their communities. Helen Marrow reports that many African Americans in the rural south object to Hispanic immigrants benefiting from affirmative action even though they have just arrived in the United States and never experienced historical discrimination. As Douglas Massey argues in his conclusion, many of the towns profiled in this volume are not equipped with the social and economic institutions to help assimilate new immigrants that are available in the traditional immigrant gateways of New York, Los Angeles, and Chicago. And the continual replenishment of the flow of immigrants may adversely affect the nation's perception of how today's newcomers are assimilating relative to previous waves of immigrants. *New Faces in New Places* illustrates the many ways that communities across the nation are reacting to the arrival of immigrant newcomers and suggests that patterns and processes of assimilation in the twenty-first century may be quite different from those of the past. Enriched by perspectives from sociology, anthropology, and geography, *New Faces in New Places* is essential reading for scholars of immigration and all those interested in learning the facts about new faces in new places in America.

**Global Heartland** Faranak Miraftab, 2016-01-07 *Global Heartland* is the account of diverse dispossessed and displaced people brought together in a former sundown town in Illinois. Recruited to work in the local meat processing plant, African Americans, Mexicans, and West Africans re-create the town in unexpected ways. Drawing on ethnographic research conducted in the US, Mexico, and Togo, Faranak Miraftab shows how this workforce is produced for the global labor market, how the displaced workers' transnational lives help them stay in these jobs, and how they negotiate their relationships with each other across the lines of ethnicity, race, language, and nationality as they make a new home. Beardstown is not an exception but an example of local-global connections that make for local development. Focusing on a locality in a non-metropolitan region, this work contributes to urban scholarship on globalization by offering a fresh perspective on politics and materialities of placemaking.

[Arab Worlds Beyond the Middle East and North Africa](#) Mariam F. Alkazemi, Claudia E. Youakim, 2021-06-17 Just like people around the world have done for generations, Arab people from the Middle East and North African MENA

region have immigrated to various nations around the world A number of push factors account for why groups have left their homeland and pulled to another nation to settle The history and patterns of Arab migration out of the MENA illustrates the wide array of reasons for these patterns primarily illustrating that mass emigration and settlement are highly linked to a number of factors including social political economic familial climates of each nation state and its policies If it is one takeaway that this edited volume brings to light it is that the Arab MENA does not only include a diverse population within each nation state it also illustrates the ways in which their settlement in new nations have contributed to their own identity development patterns their communities and that of their new nation state This book celebrates the achievements and acknowledges the challenges of the new communities that Arabs have built around the world It shows examples of societies that have embraced the Arab diaspora as well as examples of sidelining these communities These examples come from a number of subject areas from music to international affairs The examples are both contemporary and historical authored by individuals with a diverse set of disciplinary lenses and professional training This book is meant to fill a gap in the literature as it expands on the understanding of Arab communities to inform and inspire a more nuanced inclusive approach to the study of the Arab diaspora It does so by revealing untold stories that challenge stereotypes to push for more inclusive media representation of Arab identity and its development in various regions of the world

**Mexican Immigrant Integration in the Southeast** Meredith Glenn Cabell,2007 *Anthropology News* ,2005 **The West Indian Diaspora** Alwyn D. Gilkes,2007 Gilkes finds that not surprisingly race related factors are the major risks for immigrants to both Canada and the U S from the West Indies Individuals felt constrained by race and ethnicity from fully integrating into society Paradoxically this is more problematic in Canada where multiculturalism is promoted as an aid to integration In Canada immigrants see multiculturalism as contributing to separatism cultural intolerance and marginalization Gilkes also challenges the accepted wisdom that marginalization and separation any process other than acculturation result in increased acculturative stress Instead the integrative process rarely progresses beyond the ethnic group or community level In fact Gilkes most important finding is the strength of social support existing in the communities The research lends support to the theory that the success of immigrant acculturation rests in the strengths the immigrants bring to the host country

**Rural Sociology** ,2011 **Immigration's New Frontiers** Greg Anrig,Tova Andrea Wang,2006 Before 1995 about three fourths of the nation s immigrants settled in just six states California Texas Illinois Florida New York and New Jersey In the decade since however immigrants increasingly have bypassed those traditional gateway states in favor of new frontiers and twenty two other states have experienced extremely rapid growth in their immigrant populations How have these new destination states approached the influx of new immigrants the lion s share of whom are recent arrivals with limited English skills and low incomes How have officials in these laboratories of democracy faced the new public policy and political challenges *Immigration's New Frontiers* examines the experiences of North Carolina Iowa Georgia Minnesota and Nebraska The book provides readers with a better understanding of the enormous difficulties caused by the absence of a functioning federal system In many cases states and localities are attempting to resolve within their jurisdictions problems mostly concerning undocumented immigration that can only be adequately addressed at the national level Such issues have become all the more difficult as a combination of racial tensions job competition disruption in particular neighborhoods and political grandstanding have often impeded problem solving efforts
