Cardiology In Aids:

Cardiovascular Care in Patients With HIV Merle Myerson, Marshall J. Glesby, 2019-03-15 This book provides the most current overview of the evaluation and management of cardiovascular disease in people living with HIV AIDS The text assesses the risk factors associated with cardiovascular disease in HIV AIDS patients and explores the most cutting edge ways to diagnose and treat the specific diseases that are most common for people living with HIV This text takes a well rounded multidisciplinary approach that considers infectious disease and HIV specialists who may have little familiarity with the diagnosis and management of manifest CVD or risk factors as well as those in remote areas where providers may have little or no infrastructure to support optimal care for their patients The text also serves cardiovascular specialists who may not have the expertise in HIV care to meet the unique needs of these patients Cardiovascular Care for the Patient Living with HIV is the ultimate resource for not only all infectious disease and HIV specialists but also for cardiologists neurologists vascular surgeons general practitioners nurse practitioners physician s assistants and all other medical professionals who care for people living with HIV

Cardiology in AIDS ,1998-09-04 HIV infection has major consequences for the cardiovascular system and has become one of the leading causes of acquired heart disease This book has been written to inform the cardiology community about HIV related cardiovascular complications and to furnish primary care providers with information about cardiac aspects of HIV infection The text covers all aspects of cardiovascular disease in relation to HIV including pathology pharmacology concerns in children and the elderly and how complications can affect the fetus Practical applications of nursing and patient management are also addressed

HIV Infection and the Cardiovascular System G. Barbaro, J. S. Borer, 2003-07 Past studies revealed that HIV infection may implicate diverse cardiac diseases such as cardiomyopathy coronary heart disease cardiac neoplasms endocarditis or pericarditis In addition it was found that highly active antiretroviral therapy HAART often causes as an adverse effect a metabolic syndrome characterized by lipodystrophy lipoatrophy dyslipidemia and insulin resistance leading to an increase in coronary artery disease and stroke This book focuses on the most recent findings in HIV associated heart disease and HAART associated metabolic and cardiovascular complications In a first part the epidemiology pathogenesis and molecular biology of HIV associated cardiovascular disease pulmonary hypertension lipodystrophy and HAART associated metabolic syndrome are reviewed The second part offers clinical and therapeutic insights into HIV HAART associated atherosclerosis coronary heart disease stroke vasculitic syndromes and pulmonary hypertension Besides cardiovascular complications in HIV infected children cardiac surgery in HIV infected patients and the prevention and management of HAART associated cardiovascular complications are points under discussion Finally the interaction between HAART and drugs commonly used to treat cardiovascular disease is carefully analyzed HIV Infection and the Cardiovascular System presents state of the art findings of basic and clinical scientists and is a valuable reference for specialists in cardiology and internal medicine as well as for infectiologists
