*America Goes Hawaiian* Geoff Alexander, 2019-01-14 How did Hawaiian and Polynesian culture come to dramatically alter American music fashion and decor as well as ideas about race in less than a century It began with mainland hula and musical performances in the late 19th century rose dramatically as millions shipped to Hawaii during the Pacific War then made big leap with the advent of low cost air travel By the end of the 1950s mainlanders were hosting tiki parties listening to exotic music lazing on rattan furniture in Hawaiian shirts and of course surfing Increasingly they were marrying people outside of their own racial groups as well The author describes how this cultural conquest came about and the people and events that led to it

**The Globalisation of the Oceans** Frank Broeze, 2017-10-18 This book maintains that container shipping is vital to the actualisation of globalisation and that without it globalisation would remain a concept rather than reality It argues that container shipping has been academically overlooked as a global business sector in favour of more prominent sectors such as oil or arms trade and aims to provide a complete history of containerisation from the 1950s to the turn of the millennium This history explores the growth of the container industry due to prominent innovation in vessel design early adoption of the internet large international mergers and significant physical alterations to the global port system With particular emphasis on the east west trade the chapters cover the growth and development of the container industry to the social changes experienced by seafaring labour forces the cultural impact of the container bringing a domineering land presence to maritime activity through to the environmental concerns surrounding the industry The study is not a quantitative economic analysis of the industry rather an updated history that strives to demonstrate the importance of transport infrastructures to any consideration of global business sectors by providing evidence of the container industry s stimulation of the global economy

**A Pacific Legacy** Wayne Bonnett, 1991 Exquisite collection of photos from the Museum Archives of the San Francisco Maritime National Historical Park Many were made with old large and slow film resulting in extraordinary detail and contrast Most of the text is confined to lengthy captions that place the vessel and frequently provide its history Chapters begin with a page of introduction to such subjects as ports of the Pacific shipbuilding the navy Aside from its obvious place in history collections this book will grace photography libraries Chronicle Books grows more admirable with each season Annotation copyrighted by Book News Inc Portland OR
