Crawling Behind: America's Child Care Crisis and How to Fix It Elliot Haspel,2019 I've totally washed away the dream of having one more child I had never intended to be a stay at home parent but the cost of child care turned me into one We had to pull our toddler out of his program because we couldn't afford to have two kids in high quality care These are not the voices of those down on their luck but the voices of America's middle class The lack of affordable available high quality childcare is a boulder on the backs of all but the most affluent Millions of hard working families are left gasping for air while the next generation misses out on a strong start To date we've been fighting this five alarm fire with the policy equivalent of beach toy water buckets It's time for a bold investment in America's families and America's future There's only one viable solution Childcare should be free *Caring for America's Children--a Congressional Symposium on Child Care and Parenting*
