Beyond Romance M. C. Dillon, 2001-10-05 Critiques the predominant romantic ideal *Beyond Romance* Eric Ernest Houston, 2025-11-18 *Beyond Romance The Architecture of Love* is an in depth exploration of love as a deliberate constructed experience rather than a spontaneous emotion Moving beyond idealized notions of romance the book examines what allows relationships to endure emotionally psychologically and practically over time Rather than treating love as fate or chemistry alone the book presents love as an architecture a structure built from trust communication vulnerability emotional regulation boundaries commitment and mutual understanding Each chapter acts as a structural component showing how relationships either stabilize or collapse depending on how these elements are handled The book guides readers through the full lifespan of love from attraction and intimacy to conflict repair marriage and long term commitment revealing how healthy relationships are maintained not by perfection but by skill awareness and accountability What the Book Explores The eleven forms of love and how they interact within lasting relationships The difference between sex and making love and why emotional safety determines intimacy How power control and equality operate subtly within partnerships Why conflict is inevitable and how it can strengthen rather than destroy connection The role of emotional regulation and nervous system awareness in maintaining safety How needs and boundaries protect both love and identity Why communication fails even when care is present and how to restore understanding How trust is built broken repaired or rightfully abandoned The realities of marriage and commitment as ongoing choices rather than static promises Who This Book Is For This book is written for Individuals seeking deeper healthier relationships Couples wanting to strengthen long term partnerships Readers recovering from relational pain who want understanding not blame Anyone who believes love should mature not fade It speaks to those who want love that is stable respectful intimate and enduring not merely passionate Central Insight The book's central message is clear Love does not fail because people stop feeling It fails because its structure is neglected When love is intentionally built consciously maintained and compassionately repaired it becomes resilient enough to withstand conflict change and time *Beyond Romance The Architecture of Love* offers not fantasy but a blueprint for love that lasts *Beyond Love and Other Stories* Shiv Kumar Kumar, 1980 **T.P.'s and Cassell's Weekly**, 1923 *The Living Age*, 1917
