Beyond Empire:

Beyond Empire John T. Ducker, 2020-02-20 *Beyond Empire* looks at three decades of British colonial administration to assess the capacity of the independent governments of Africa to achieve independence. A wealth of archival material and a unique review of British press over those decades brings to life the dynamic and the tension of the process of decolonisation. Addressing a wide range of issues from education, constitutional change and economic relations, *Beyond Empire* sheds new light on aspects of colonial history at the country level with the focus on the African administrations themselves as agents in the decolonisation process.

Beyond Empire and Nation Francis Ngaboh-Smart, 2021-11-29 The impact of nationalism on the emergence and development of African literature is now well documented. Globalization or the postnational state it seems to herald the emblematic phenomenon of our era has not received much attention. Using a cultural studies approach, *Beyond Empire and Nation* is a fascinating account of the process of globalization in African Literature. The book starts with an analysis of nationalist rhetoric and ideology as exemplified by works such as *Things Fall Apart*. Thereafter, it dedicates a chapter each to B. K. L. S. novels and Nuruddin Farah's Trilogy *Maps, Gifts and Secrets* as articulations of a globalized postnational reality. At the heart of the book is an analysis of a nuanced and complex experience of global modernity as Africans reassess the constants of nationalist discourse: culture, identity, locality and territoriality. Ngaboh-Smart does not believe that the postnational phenomenon is necessarily detrimental to the national state and argues that it may well be capable of generating a new form of individual agency, although he is critical of those writers who ignore the new power dynamic inherent in globalization.

Moving beyond the clash of cultures paradigm, Ngaboh-Smart's account of the renegotiation of national identity and ideology is a significant contribution to the criticism of African literature and its link to global social processes.

Beyond Empire Esmé Cecil Wingfield-Stratford, 1946

Beyond Empire and Revolution Irving Louis Horowitz, 1982 A sequel to the author's *Three Worlds of Development*, this book looks at the situation 15 years later and discovers that neither Western nor Socialist ways seem to be the approach of the Developing World which appears to depend upon military rule for purposes of both economic development and democratization.

Beyond Empire Jonathan Ingleby, 2010-03-05 Christian mission has been linked for good and ill with colonialism. But what is its relation to postcolonialism to a world which has gone beyond empire but has not necessarily fully taken into account its colonial past? Postcolonialism offers a lens through which we can re-read Scripture and re-view the history of our times. Topics such as migration, the fate of indigenous peoples, hybridity, the postcolonial city, development and many more come into focus in this book. The discussion then leads naturally to a fresh expression of the nature of the Kingdom of God and the mission of the church.
