Handbook of Research on Advancing Critical Thinking in Higher Education Wisdom, Sherrie,Leavitt, Lynda,2015-07-17

The importance of critical thinking has surged as academics in higher education realize that many students upon entering college lack the critical thinking skills necessary to succeed While much has been written regarding the lack of critical thinking less has been written on the success of methods implemented to develop this fundamental skill The Handbook of Research on Advancing Critical Thinking in Higher Education explores the effective methods and tools being used to integrate the development of critical thinking skills in both undergraduate and graduate studies Due to the difficulties associated with teaching critical thinking skills to learners of any age this publication is a crucial addition to the scholarly reference works available to pre service and early career teachers seasoned educational professionals professors across disciplines curriculum specialists and educational administrators

Think! Michel Legault,2006-10-24 In Think award winning author LeGault refutes the 2005 bestseller Blink The Power of Thinking Without Thought and describes an intellectual crisis in our country the factors that created it and why thinking is relevant to everyday lives jobs and quality of life

SCM Core Text: Christian Doctrine Mike Higton,2013-01-25 The SCM Core Text Christian Doctrine offers an up to date accessible introduction to one of the core subjects of theology Written for second and third year university students it shows that Christian Doctrine is not a series of impossible claims to be clung to with blind faith Mike Higton argues that it is rather a set of claims that emerge in

the midst of Christian life as Christian communities try to make enough sense of their lives and of their world to allow them to carry on Christian communities have made sense of their own life and the life of the wider world in which they are set as life created by God to share in God's own life They have seen themselves and their world as laid hold of God's life in Jesus of Nazareth and as having the Spirit of God's own life actively at work within them This book explores these and other central Christian doctrines and in each case shows how the doctrine makes sense and how it is woven into Christian life It will help readers to see what sense it might make to say the things that Christian doctrine says and how that doctrine might affect the way that one looks at everything the natural world gossip culture speaking in tongues politics dieting human freedom love High Noon justice computers racism the novels of Jane Austin parenthood death and fashion *Catalog of Copyright Entries. There is a seeming dichotomy in C S Lewis's writing On the one hand we see the writer of argumentative works and on the other hand we have the imaginative poet Lewis also found this dichotomy within himself When he was a rationalist and atheist he found that these two sides of him were pulling in different directions he believed that his rationalist side could not be reconciled with his imaginative side Once he became a Christian he eventually found a means of marrying the two principally through story and myth Within C S Lewis studies there is also a common conception of Lewis as a modern rationalist philosopher i e a rationalist who thinks arguments and his arguments in particular are the last answer on the questions he undertakes Reasoning beyond Reason attempts to take this view to task by placing Lewis back into his pre modern context and showing that his sources and influences are classical ones In this process Lewis is viewed through the idea that imagination and reason are connected in an intimate way they are different expressions of a single divine source of truth and there is an imagination already present upon which reason works Lewis's transpositional view of imagination implicitly pushes towards a somewhat radical position the imagination is to be seen as theological in its reliance upon something more than the merely material it necessarily relies on a transcendent funding for its use and meaning In other words the imagination is a well source for what we might normally label rational **Becoming a Critical Thinker** Sherry Diestler,2005 This book trains students to distinguish high quality well supported arguments from arguments with little or no evidence to support them It develops the skills required to effectively evaluate the many claims facing them as citizens learners consumers and human beings and also to be effective advocates for their beliefs Chapter topics include the foundations of arguments reality and value assumptions and ethics inductive arguments and generalizations reasoning errors the power of language media literacy fairmindedness and persuasive speaking For critical thinkers who want to be discerning about the messages they read or hear make decisions based on careful consideration of both facts and values be alert to distortion in reporting and advertising and defend their own viewpoints **Critical Thinking and Logic Skills for College Students** Elizabeth L. Chesla,1999 For Study Skills College Survival Skills and developmental courses These fully

revised new editions of LearningExpress's best selling Skill Builders series offer a unique review of basic academic skills in a fast easy to learn format Each LearningExpress book focuses on practical applications and provides a built in incentive oriented study plan in the 20 Minutes a Day concept Students will find these self study programs a valuable tool for improving the critical thinking and reasoning skills that lead to success at work and in the classroom Developing Critical Thinkers Stephen Brookfield,1987-09-11 Learning to think critically is one of the most significant activities of adult life When we become critical thinkers we become aware of the assumptions under which we and others think and act However critical thinking has been greatly neglected in the adult educational literature This book aims to introduce readers to critical thinking A central theme is the need for people to make connections between their private lives and broader social forces Back cover Learning to Study Through Critical Thinking Jonelle A. Beatrice,1995 Proceedings and Addresses of the American Philosophical Association American Philosophical Association,2005 List of members in v 1 A Basic Reader for College Writers David I. Daniels,Janet M. Goldstein,Christopher G. Hayes,1989 **Core Information Series: Psychology**,1975 *Media Mythmakers* Benjamin Radford,2003-10 This hard hitting critique of media culture examines not only the ways in which the public is deceived but the media's role in propagating those deceptions Illustrations
