Beyond Her Control:

Beyond Her Control [local]. Jessica Steele, 2003 **Beyond My Control** Stuart Ross McCallum, 2008 Stuart Ross McCallum shares a true account of his battle with epilepsy beginning with the peculiar sensations he experienced as a teenager that led to his diagnosis and concluding with his eventual recovery from a temporal lobe lobectomy McCallum vividly describes his twenty year journey of living with epilepsy and how this unpredictable disease has not only impacted his life but the lives of everyone around him For years he operated a business and managed his staff while battling an ever increasing number of seizures As his condition worsened and his postseizure responses became more intense he was often prone to violent outbursts that threatened his safety as well as the safety of those in his inner circle McCallum shares how the perception of the disease and the socially unacceptable behaviors that occurred as a result of his seizures eventually forced him to risk everything he made the life altering decision to undergo two brain operations that he hoped would provide freedom from a life of instability danger and stares from strangers Beyond My Control provides an honest emotional look into a highly complex and often misunderstood condition and how one man s perseverance helped him break through the darkness to find hope on the other side *Beyond Her Control* Jessica Steele, 1992 Board of Contract Appeals Decisions United States. Armed Services Board of Contract Appeals, 2008 **Where Winners Live** Dave Porter, Linda Galindo, 2013-02-06 Be accountable and achieve success Personal accountability is the secret weapon of every successful sales professional It is the secret weapon of Where Winners Live co author Dave Porter who became the owner and CEO of Baystate Financial Services at age 35 and grew it into a 100 million a year business over the next 15 years It is the secret weapon of Where Winners Live co author Linda Galindo who transformed herself from the self proclaimed Queen of Victims into an entrepreneur business coach consultant and speaker whose typical audience numbers 500 or more Like all highly accountable professionals these authors live Where Winners Live an achievement they say is available to everyone Written in a no excuses tone and filled with personal stories and practical exercises their book offers readers the non negotiable high performance behaviors of the sales trade and tried and true best practices for success Exposes the key difference between top earning sales professionals and those who struggle to make their numbers every quarter Outlines the three critical characteristics of personal accountability responsibility self empowerment and ownership of results after the fact Explores personal accountability from the perspective of both leaders and rank and file sales professionals Where Winners Live shows readers the most effective way to hold themselves and others accountable The Pride of the Graftons Mrs. Teignmouth Shore, 1909 *Rationality and Belief* Ralph Wedgwood, 2023-05-11 This book gives a general theory of rational belief Although it can be read by itself is a sequel to the author s previous book The Value of Rationality Oxford 2017 It takes the general conception of rationality that was defended in that earlier book and combines it with an account of the varieties of belief and of what it is for these beliefs to count as correct to develop an account of what it is for beliefs to count as rational

According to this account rationality comes in degrees the degree to which one's beliefs counts as rational is determined by their distance from a corresponding probability function where this distance is measured by those beliefs expected degree of incorrectness according to the probability function the account also involves an explanation of what determines exactly which probability function plays this role in each case and of why this probability function should play this role In developing and defending this account new light is shed on several central epistemological issues These issues include the distinction between propositional and doxastic justification the debates between internalism and externalism and between foundationalism and coherentism the significance or lack of it of the notion of evidence the relationship between credences full belief inference and suspension of judgment the nature of the kind of possibility that is presupposed by the relevant sort of probability and whether rationality is diachronic so that the beliefs that it is rational for us to have now depend in part on the beliefs that we held in the past Finally some suggestions are made about how this theory bears on a range of further topics including the defeasibility of inference scepticism and the analysis of knowledge
