Paul A. Wagner, Daphne Johnson, Frank Fair, Daniel Fasko Jr., 2016-12-07 In the wake of initiatives such as No Child Left Behind and the use of high stakes testing the emphasis in schools has been on drill and practice for the test Genuine understanding and critical thinking have been increasingly shortchanged As a result students have fewer opportunities to advance their insight into cognitive and emotional challenges even though both teachers and parents recognize the importance of developing deliberative and reflective thinking skills This book uniquely combines two things First it provides resources for classroom teachers in grades 3-6 that make it possible for them at a moment's notice to take advantage of a teachable moment by drawing students into productive intellectual discussions Second it gives the reader an overview of the rationale and the research base for engaging students in educational activities that are truly intellectual and that are not limited to training for testing success

**Together at the Table** Karen Oliveto, 2018-07-31 Together at the Table is the personal story and public message of Bishop Karen Oliveto the first openly LGBTQ person to be elected a bishop in The United Methodist Church Her election was and is controversial with opponents seeking to have her removed and some even threatening violence against her The denomination has been debating the inclusion of LGBTQ people for decades and will be gathering in February 2019 to determine whether it can agree to let conferences within the church ordain as they see fit and let congregations decide what weddings to hold or whether conservative and liberal factions will break off from the denominational body Bishop Oliveto believes that the church can stay together that people of different convictions can remain in communion with one another Woven together with her own story of coming out and following God's call to ordained ministry is her guidance for how to live together despite differences by practicing empathy living with ambiguity appreciating the diversity of creation and embracing unity without uniformity

*Beyond Transcendence in Law and Philosophy* Louis E. Wolcher, 2005 What is the law of the law What produces our craven subservience to linguistic norms and our shocking indifference to the phenomenon of universal suffering In a path breaking new work of philosophy Louis Wolcher seeks to answer these questions from the standpoint of Zen Buddhism Bringing an Eastern sensibility into contact with three of the most important themes in Western philosophy Beyond Transcendence in Law and Philosophy meticulously investigates three of the twentieth century's most important philosophers Martin Heidegger on being Emmanuel Levinas on ethics and Ludwig Wittgenstein on language In the context of the larger Western obsession with transcending the ordinary Louis Wolcher argues that the yearning for transcendence is born of the illusion that there is a fundamental difference between the ordinary and the profound Employing Zen koans and stories to advance a deflationary view of language and knowledge he goes on to argue that the norms of transcendence to which we cling are not eternal truths but artefacts of desperate minds adrift on a sea of impermanence What used to seem so majestically True Right and Just thus shows itself to be utterly mundane as merely true right and just What is left however is not nihilism for clinging to a view of nothingness is just as deluded as clinging to a view of somethingness but rather a new beginning of compassionate concern for the suffering of others Beyond Transcendence in Law and Philosophy is a strikingly original synthesis of Eastern and Western thought It will enlighten philosophers and legal theorists as well as those who are interested in or open to the insights of Zen Buddhism
