as confident visual storytellers regardless of their technical background With an emphasis on intention over execution this book provides a fresh and practical framework for those seeking to create images that are not only beautiful but narratively effective This book provides key reading for students of filmmaking and cinematography as well as aspiring and early career filmmakers including directors screenwriters and producers who may feel intimidated by the technical aspects of cinematography but need to make or guide visual decisions An online instructor s manual provides additional support making it easy for educators to incorporate the book and its exercises into their curriculum The book is structured to be adaptable into a complete academic course emphasizing hands on practice and analysis regardless of the equipment students use
