Beyond the Magic Bullet Raymond Chang, 2012-05-17 While scientists win occasional skirmishes in the battle against cancer the overall war continues to go badly Stories abound about revolutionary drugs that may be available in the future but offer no real help to those who have cancer today At present conventional approaches continue to rely on a narrowly focused strategy of treatments with doctors using at best only one or two drugs or other therapies at a time While this may be acceptable in a laboratory setting or a clinical trial it has done little to diminish the number of people who die each year from this dread disease Recently however conventional medicine s core strategy has been re examined and a new potentially more effective approach has emerged one that combines the best of Eastern wisdom with Western science

Beyond the Magic Bullet The Anti Cancer Cocktail by Dr Raymond Chang takes a penetrating look at this bold new way of treating cancer The book begins by examining modern medicine s use of surgery radiation chemotherapy hormone therapy and targeted drugs in the war against cancer It then offers a new therapy based on the knowledge that certain off label drugs nutrients and therapies are each somewhat effective against cancer By combining these therapeutic agents into a cocktail doctors have found that they can attack the cancer all at once on many different levels and at several different angles with the goal of overwhelming the disease Dr Chang not only discusses the effectiveness of the cocktail but also provides an examination of the most valuable agents available For over a thousand years Traditional Chinese Medicine has used the cocktail approach to safely and effectively fight disease Throughout the world the most successful treatments for HIV and Hepatitis C are based on this strategy

Beyond the Magic Bullet The Anti Cancer Cocktail leads the way to a bright new future of hope and healing

A Journey through the Beyond Silvia Zago, 2022-02-01 This volume offers the first comprehensive overview of the evolution over time of a foundational concept of the Egyptian afterlife beliefs the Duat or netherworld The Duat is a complicated multifaceted notion which was never canonized into a single version of the beyond but

offered instead a variety of alternatives attempting to describe the metaphysical realms beyond the visible world and beyond life Theological speculations gave rise to a rich textual and visual repertoire which underwent a process of evolution over thousands of years during which newer ideas and images were constantly introduced Through the analysis of royal and non royal funerary texts from the late Old Kingdom to the end of the New Kingdom this book traces the development of the conceptualization of the notion of Duat outlining what it encompassed and where it was imagined to be located In addition to the translation and discussion of the most significant passages of the texts analyzed each chapter also provides an overview of the individual compositions and of the relevant theological cosmological and astronomical notions complementing the conceptual framework of which the Duat formed but a part Additionally discussions of concurrent changes in Egyptian culture society and ideology are included in order to clarify the context in which afterlife beliefs and related texts evolved An analysis of the correlation between funerary compositions and their material supports complements the study emphasizing the Egyptians belief in a magical synergy between texts images and their contexts in the activation of a suitable effective afterlife for the recipients of the texts

Three Great Books on Magic Franz Bardon, 2020-12-06 This volume contains three books of Franz Bardon 1 Initiation into Hermeticism 2 The Practice of Magical Evocation 3 The True Key to the Quabalah In reality magic is a sacred science it is in the very true sense the sum of all knowledge because it teaches how to know and utilize the sovereign rules There is no difference between magic and mysticism or any other conception of the name Wherever authentic initiation is at stake one has to proceed on the same basis according to the same rules irrespective of the name given by this or that creed Considering the universal polarity rules of good and evil active and passive light and shadow each science can serve good as well as bad purposes Let us take the example of a knife an object that virtually ought to be used for cutting bread only which however can become a dangerous weapon in the hands of a murderer All depends on the character of the individual This principle goes just as well for all the spheres of the occult sciences In my book I have chosen the term of magician for all of my disciples it being a symbol of the deepest initiation and the highest wisdom
