**Beyond the Miracle of the Market** Robert H. Bates, 2005-05-09 As capitalism defeated socialism in Eastern Europe the market displaced the state in the developing world In **Beyond the Miracle of the Market** first published in 2005 Bates focuses on Kenya a country that continued to grow while others declined in Africa and mounts a prescient critique of the neo classical turn in development economics Attributing Kenya s exceptionalism to its economic institutions this book pioneers the use of new institutionalism in the field of development In doing so however the author accuses the approach of being apolitical Institutions introduce power into economic life To account for their impact economic analysis must therefore be complemented by political analysis micro economics must be imbedded in political science In making this argument Bates relates Kenya s subsequent economic decline to the change from the Kenyatta to the Moi regime and the subsequent use of the power of economic institutions to redistribute rather than to create wealth
