Hymns for the Use of the People Called Methodists 1780 Taking this volume as a case study and concentrating on the
Charles Wesley hymns included in it Teresa Berger clarifies the relationship between the language of doxology of worship
and praise of God and the substance of theological reflection She identifies the central theological themes and emphases in
this body of hymnody and raises the question of how theology can be embodied in hymns Central to her argument is the
claim that the theological analysis of doxological material is possible only when it takes care to recognize and safeguard the
characteristics the criteria of authenticity and the tests of authority and legitimacy peculiar to doxological language Part One
of the book sets the whole discussion within the context of a renewed interest in doxological and liturgical traditions across
Christianity by showing how the relationship of doxology and theology is an important topic of theological discussion in
Roman Catholic Protestant Orthodox and ecumenical circles Part Two is devoted to a thorough theological analysis of the
central themes and images of the 1780 Collection Part Three attempts to clarify the nature of doxology in its relation to
theology The Journal of Jewish Studies ,2005
