Caravaggio The Antique:

Caravaggio and the Antique Avigdor W. G. Posèq, 1998 This book is comprised of a series of essays on some of the artist's best known works The general theme is the central influence which the classical tradition had on Caravaggio's language of form and gestures and the expressive physiognomic characterisation of his figures The author identifies various antique statues and reliefs which were available to the artist in contemporary collections and discusses the ancient Greek and Latin texts and humanistic writings relevant to an iconological understanding of Caravaggio's imagery All this is in Caravaggio's anti-classicism and his contempt for antique masterpieces allegedly expressed in his down-to-earth realism

Caravaggio Michelangelo Merisi da Caravaggio, 2006 This volume considers Caravaggio's revolutionary realism from a range of perspectives presenting new avenues for research by a plurality of leading scholars First it advances our understanding of Caravaggio's relationship with the new science of observation championed by Galileo Second it examines afresh the theoretical nature and artistic means of Caravaggio's seemingly direct realism Third it extends the horizons of research on Caravaggio's complex intellectual and social milieu between high and low cultures Genevieve Warwick is Senior Lecturer in the Art History department at the University of Glasgow
