Caribbean Discourse Selected Essays:

Caribbean Discourse Édouard Glissant, 1989 Selected essays from the rich and complex collection of Edouard Glissant one of the most prominent writers and intellectuals of the Caribbean examine the psychological sociological and philosophical implications of cultural dependency Edouard Glissant's Caribbean Discourse is an unflaggingly ambitious attempt to read the Caribbean and the New World experience not as a response to fixed univocal meaning imposed by the past but as an infinitely varied dauntingly inexhaustible text

Creole in the Archive Roshini Kempadoo, 2016-10-24 The image of the Caribbean figure has been reconfigured by photography from the mid 19th century onwards Initial images associated with the slave and indentured worker from the locations and legacies associated with plantation economies have been usurped by visual representations emerging from struggles for social political and cultural autonomy Contemporary visual artists engaging with the Caribbean as a 21st century globalised space have focused on visually re-imagining historical material and events as memories histories and dreamscapes Creole in the Archive uses photographic analysis to explore portraits postcards and social documentation of the colonial worker between 1850 and 1960 and contemporary often digital visual art by post-independent postcolonial Caribbean artists Drawing on Derridean ideas of the archive the book reconceptualises the Caribbean visual archive as contiguous and relational It argues that using a creolising archive practice the conjuncture of contemporary artworks historical imagery and associated locations can develop insightful new multimodal representations of Caribbean subjectivities

Theorizing Glissant John E. Drabinski, Marisa Parham, 2015-08-21 Édouard Glissant's work has begun to make a significant impact on francophone studies and some corners of postcolonial theory His literary works and criticism are increasingly central to the study of Caribbean literature and cultural studies This collection focuses on the particularly philosophical register of Glissant's thought Each of the authors in this collection takes up a different aspect of Glissant's work and extends it in different directions twentieth century French philosophy Bergson Badiou Meillassoux the canon of Caribbean literature North American literature and cultural theory and contemporary cultural politics in Glissant's home country of Martinique all receive close critical treatment What emerges from this collection is a vision of Glissant as a deeply philosophical thinker whose philosophical character draws from the deep resources of Caribbean memory and history Glissant's central notions of rhizome chaos opacity and creolization are given a deeper and wider appreciation through accounts of those resources in detailed conceptual studies

Migration Literature and Hybridity S. Moslund, 2010-07-07 Using three literary analyses to show what happens once we leave behind the theoretical poverty of celebratory readings of contemporary migration and hybridity literature this book offers a way out of the theoretical deadlock of putting hybridity against purity or flux against fixity

Faulkner in the Twenty-First Century Robert W. Hamblin, Ann J. Abadie, 2009-09-18 A turn of the century map of where Faulkner studies have traveled and where they are headed

Contemporary Postcolonial Theory Padmini Mongia, 2021-01-07 There is a crisis in contemporary

postcolonial theory while an enormous body of challenging research has been produced under its auspices severely critical questions about the validity and usefulness of this theory have also been raised This Reader is positioned at the juncture where it can address these contestations It makes available some of the classics of the field engages with the issues raised by contemporary practitioners but also offers several of the arguments that strongly critique postcolonial theory Although postcolonial theory purports to be inter disciplinary and frequently anti foundationalist traces of disciplinary formations and linearity have continued to haunt its articulations This Reader on the other hand offers a uniquely inter disciplinary mapping It is concerned with three main areas definitional problems and contests including the current challenges to postcolonial theory the disciplining of knowledge where the multiple resonances of the word disciplining are all engaged and the location of practice where the relations between intellectual practice and historical conditions are explored Finally since the guiding principle of this Reader is simultaneous attention to the enabling and constraining mechanisms of historical realities and institutional practices the commentary problematizes the writing of histories the formations of canons and indeed the production of Readers

Voices in the Creation of an Indigenous Trinidad and Tobago Theatre Patrick

Brennan, 2025-04-15 This book explores how from the mid 20th century a new form of theatre emerged in Trinidad and Tobago as its playwrights came to mine the Afro Creole Trinidadian folk milieu This book focuses primarily on the period from the 1950s through to the contemporary moment investigating how Trinidad s theatrical practitioners developed methodologies that formulated an indigenous theatre It examines how in its creation it would distance itself from Western forms as the stage was decolonized making way for a variety of new forms that mimetically reflect the reality of Trinidad s Afro Creole folk This book establishes a premise on which the terms folk and indigenous have been shaped by Trinidad s socio historical past It develops an argument that outlines how Trinidad s African cultural retentions form a central basis on which a theatrical tradition was established This book traces the historical impetus and driving forces that gave rise to a body of writers for whom the vitally important link between the production of drama and the search for identity in the immediacy of the post colonial period is established The book develops a structure that forms three lines of discrete research folk expression women their portrayal and their emergence as theatrical practitioners and theatrical developments through the decades These subject areas are examined through the work of a broad body of playwrights Exploring their theory and praxis their work is described in terms that exhibit a variety of genres with tropes that have become indelible resources for theatrical practitioners to draw from With a theatrical base that extends from popular comedy to avant garde spiritual works the theatre is shown to represent a composite entity one that accommodates a plurality of forms which in their summation express the breadth and depth of Trinidad and Tobago s theatrical journey one that is still very much underway Readers that have an interest in theatre cultural gender post colonial or Caribbean studies will enjoy this book *The Other America* J. Michael Dash, 1998 A wide ranging work that explores two centuries of Caribbean literature from a comparative perspective

While haunted by the need to establish cultural difference and authenticity Caribbean thought is inherently modernist in its recognition of the interplay between cultures brought about by centuries of contact domination and consent

Reconstructing Hybridity, 2007-01-01 This interdisciplinary collection of critical articles seeks to reassess the concept of hybridity and its relevance to post colonial theory and literature The challenging articles written by internationally acclaimed scholars discuss the usefulness of the term in relation to such questions as citizenship whiteness studies and transnational identity politics In addition to developing theories of hybridity the articles in this volume deal with the role of hybridity in a variety of literary and cultural phenomena in geographical settings ranging from the Pacific to native North America The collection pays particular attention to questions of hybridity migrancy and diaspora **Journal of West Indian Literature**, 2005 **The Johns Hopkins Guide to Literary Theory and Criticism** Michael Groden, Martin Kreiswirth, Imre Szeman, 2005 Publisher Description *The Posthumous Career of Manuel Puig*, 1991 **Reading The Shape Of The World** Henry Schwarz, 1996-05-23 This collection extends the boundaries of cultural studies beyond its current Euro American emphasis It takes readers on a wide ranging journey from the stock market to Islamic law from the African household to the Soviet apartment from the nuances of nationalism to the rude noises of capitalistic rhetoric introducing readers to the social and historical forces that shape textual practice The essays are richly imaginative and empirically detailed ingeniously connecting regional debates and local dynamics to universal global issues Finally Reading The Shape of the World reconfigures cultural studies theories and methodologies resulting in a fresh and empowering approach to this dynamic field of inquiry At the heart of this study is the optimistic belief that reading still matters that the world can be shaped by reading and that critical practices of reading can transform the contours of social life *Bridging the Americas* Stelamaris Coser, 1991 **Detours** Vivek Dhareshwar, 1989 *Translation Perspectives: Translating Latin America : culture as text* Marilyn Gaddis Rose, 1991 **Unnatural Voices** Brian Richardson, 2006 **Cambridge Anthropology**, 1998 *Primacy of the Eye* Rupert Roopnaraine, 2005 Stanley Greaves is without question one of the Caribbean s most distinguished artists and this critical monograph is both a long overdue investigation and appreciation of his work and an important contribution to the still small body of Caribbean writing about art Roopnaraine s approach takes as its starting point Greaves own reference to the primacy of the eye as a means of defining fundamentals of a Caribbean experience that cuts through or transcends the history of colonialism Roopnaraine s is in the first place an exploration of Stanley Greaves highly original visual language but one which draws attention to the significance of Greaves practice in bringing together elements from visual resources that range across traditional African and Amerindian art and contemporary European surrealism Again whilst this is in the first place a description and analysis of the visual and the importance for Greaves of the physical materials he works in Roopnaraine never loses sight of the fact that Greaves is a Guyanese artist with explicit though never overdetermining cultural and political concerns Chapters explore the roots of Greaves art in Guyanese

physical reality If all other records of modern Guyanese life were to disappear a study of Greaves paintings of compassion of the fifties and sixties would be enough to tell us how we lived his work in sculpture and ceramics the impact of his explorations of the bush of the Guyanese interior and a move into more abstract spacial concerns his return to figure paintings and an extensive investigation of the folk resources of Caribbean art his visual response to the desolate years of political dictatorship and social collapse in the Guyana of the 1980s in a more explicitly readable art and the art of his more recent years of inner exploration and what has been described as a Caribbean metaphysic The book is illustrated with 78 full colour images of Greaves paintings sculptures and ceramics and black and white illustrations from his notebooks

Roopnaraine s monograph will be of major interest not only to those concerned with Caribbean art but to those with wider postcolonial interests in the creolising process Rupert Roopnaraine was born in 1943 in Guyana He is political leader of the W P A a film maker art critic and former cricketer
