The Creative Mind Henri Bergson, 1946 *The Creative Mind* Henri Bergson, 1968 This collection comprises first of all two introductory essays written especially for it and consequently heretofore unpublished They make up a third of the volume The rest are articles or lectures mostly out of print which appeared in France or in other countries Taken as a whole they date from the period between 1903 and 1923 They bear mainly upon the method I believe should be recommended to the philosopher To go back to the origin of this method to trace the direction it impresses upon research is the particular object of the two essays which make up the introduction *An Introduction to Metaphysics* Henri Bergson, 1970 **An Introduction to Metaphysics** Henri Bergson, 1989 **Creative Mind** Ernest Holmes, 1926 **The Proper Study of Religion** Sam Gill, 2020-08-11 The first generation of the proper academic study of religion might be said to span the half century from 1963 to 2013 Supreme Court Justice Clark s 1963 opinion clarifying that any liberal education is not complete without a study of comparative religion or the history of religion and its relationship to the advancement of civilization allowed the legal teaching of religion in secular universities The end of the first generation might be marked by the 2013 retirement of Professor Jonathan Z Smith 1938 2017 from the University of Chicago where he had taught since 1968 Arguably no scholar has made a greater contribution than did Smith to establishing a proper academic study of religion In *The Proper Study of Religion* Sam Gill charts an innovative course of development for the academic study of religion by creatively engaging the legacy of Jonathan Z Smith Gill s teacher and mentor for fifty years Their careers coincided with the explosive expansion of the study of religion in secular universities in the US that began in the mid 1960s Using an engaging narrative style Gill builds on Smith s work exploring an extensive range of absorbing and foundational topics including comparison as essential to academic technique and to human knowledge itself the important role of experience richly understood both to academic studies of religion and to religions as lived play philosophically understood as a core dynamic of Smith s entire program the relationship of academic document based studies to the sensory rich real world of religions and self moving as providing a biological and philosophical foundation on which to develop and expand upon a proper academic study of religion The foregrounding of human self movement new to the study of religion is informed by Gill s experience as a dancer and student of dancing in cultures around the world This book honors the work of an unforgettable giant of a man while also offering critical assessments and innovative ideas in the effort to advance the remarkable legacy of Jonathan Z Smith *Bergson-Arg Philosophers* A.R. Lacey, 2010-07-13 First Published in 1999 Routledge is an imprint of Taylor Francis an informa company **Morality in Evolution** Idella J. Gallagher, 2012-12-06 *Les Deux Sources de la Morale et de la Religion* is not a book to leave one indifferent Those who are persuaded by its argument or inspired by its message are prone to manifest the same enthusiasm as Georges Cattai who praised it as one of the greatest and wisest books conceived by philosophers Even those who take exception to the doctrine it expounds are impelled to acknowledge its significance It was

in his critique of *Les Deux Sources* that Jacques Maritain was moved to call the philosophy of Henri Bergson one of the most daring and profound of our time. When many years ago I opened *Les Deux Sources* for the first time I turned out of curiosity to the last page and beheld these words: *l'univers est une machine à faire des dieux*. Bergson was an evolutionist but surely this was no ordinary evolutionist speaking. I thought: What must be the moral philosophy of a man who would write these words? When much later I undertook the present study it was this same question which concerned me.

The Craft of Qualitative Longitudinal Research Bren Neale, 2021-03-17. Brimming with life maps, life history calendars, and extracts from transcripts and diaries, this book illustrates by example the unique principles, challenges, and applications of qualitative longitudinal research. Synthesizing current literature on qualitative longitudinal research, it brings together sociological theory and empirically driven longitudinal studies while also highlighting a range of possible research approaches. With a consistent balance of conceptual discussions with hands-on advice, it provides readers with the foundation to adapt lessons learned from other researchers to fit their own qualitative longitudinal studies. Supported by research tools such as conceptual road maps, short data extracts, consent forms, and other data organization tools, this book provides everything postgraduate researchers need to transition from the classroom to the field.

The Prophetic Poet and the Spirit of the Age: Why Hawthorne was Melancholy Marion Montgomery, 1981. *Philosophy, Animality and the Life Sciences* Wahida Khandker, 2014-07-21. Using animals for scientific research is a highly contentious issue that Continental philosophers engaging with the animal question have been rightly accused of shying away from. Now Wahida Khandker asks whether Continental approaches to animality and organic life will make us reconsider our treatment of non-human animals. By following its historical and philosophical development, she argues that the concept of pathological life as a means of understanding organic life as a whole plays a pivotal role in refiguring the human-animal distinction. She explores the significance of this across philosophy and the life sciences through the work of a number of key thinkers of life and process from Henri Bergson to Donna Haraway.

In *Creative Mind*, Ernest Shurtleff Holmes explores what it means to be a human being and how we all can become better human beings. He explores the role of man and God, Higher Power, and how they can be or are one. This book will help you feel more in tune with the greater forces of the universe and be the best you that you can be.
