Children's Creative Inquiry in STEM Karen Janette Murcia,Coral Campbell,Mathilda Marie Joubert,Sinead Wilson,2022-04-05 This edited volume brings together international research that

explores children's creativity in STEM inquiry. It takes the position that creativity is relevant in all aspects of life and is essential for adaptable and innovative thinking. The research-informed content of the book highlights both challenges and opportunities for growing children's creativity. The book focuses on fostering children's creativity and natural curiosity in the world around them through STEM inquiry. Through STEM inquiry, children are learning through a cross-disciplinary approach where they apply concepts from multiple fields as they are thinking creatively, problem-solving, and constructing solutions. Educators play a critical role in encouraging children's creativity by modelling creativity, providing creative projects for children, and importantly, establishing rich, culturally connected environments where children have the resources, conditions, and opportunities for acting and thinking creatively. The book provides a lens for looking at children's creativity in a range of different cultural settings. It offers insight and guidance to future research and will build educators' capacity for developing children's creative practices.

Creative Teaching: Mathematics in the Primary Classroom Mary Briggs, Sue Davis, 2014-09-19. This stimulating text shows how primary mathematics can be creative, exciting, and enjoyable. Offering teachers a dynamic and different perspective, it enables them to see and teach in creative ways that will develop their pupils' mathematical thinking potential. *Creative Teaching: Mathematics in the Primary Classroom* encourages students, trainees, and practicing teachers to envision and develop a classroom where children can take risks, enjoy, and experiment with mathematical thinking and discover and pursue their interests and talents in an imaginative yet purposeful way. This second edition contains key updates to reflect the changes to the primary curriculum and includes new sections on specialist teaching, parental engagement, and approaches to homework, creative classroom environments, working walls, displays, and outdoor settings, links to assessment, speaking, listening, and learning theory, use of media, film, news, and stories for creative learning, cross-curricular work. Featuring reflective tasks in every chapter, this book will prove essential and inspiring reading for all trainee and practising teachers looking to develop their creative practice. Aimed at primary and early years trainee teachers, NQTs, and experienced teachers, this is a timely publication for teachers and schools seeking to broaden their maths curriculum, making it more creative and appealing to young minds.

Children are Artists: Supporting Children's Learning Identity as Artists Penny Hay, 2023-05-16. This book explores how we can better understand and support children's learning identity as artists. It discusses an innovative pedagogical approach that outlines parents' and educators' roles in developing and supporting children as artists. Drawing on original research, the book discusses rich case study examples and vignettes to give new insights into children's learning and developing identities as artists. It identifies the key characteristics of children's creative learning and outlines a creative and reflective pedagogy while highlighting the role of adults in the process. The chapters discuss topics such as curiosity, creative skills, self-directed learning, real-life contexts for learning, and ways of engaging creative learning and imagination.
