Crested Geckos Philip Jenner,2019-10-15 Crested geckos make a great pet for most individuals Their requirements are usually easy to meet Crested geckos are known to originate from New Caledonia Crested geckos are considered as wonderful and amazing pets for most pet owners and children They are of low maintenance and very good pets for children and even adults Crested geckos usually have a length of 7 to 9 inches and can live up to 10 to 20 years Crested geckos do exist in a wide range of colors There are different colors crested geckos do come in they usually have a fringed crest which runs from their eye down to their neck and back This book is a complete guide on everything you need to know about crested geckos

Gargoyle Geckos Billy Adamz,2025-07-18 Overview of the Species Gargoyle geckos *Rhacodactylus auriculatus* are a fascinating species of gecko native to the southern end of New Caledonia a remote island chain in the South Pacific They are one of several species of geckos that evolved in this unique ecosystem which is known for its high biodiversity and endemism Among the *Rhacodactylus* genus which also includes popular geckos like crested geckos *Correlophus ciliatus* and *leachianus* geckos *Rhacodactylus leachianus* gargoyle geckos stand out for their striking appearance manageable care requirements and calm temperament The name gargoyle gecko comes from their bony cranial ridges which give their heads a dragon like or gargoyle esque appearance These ridges coupled with the array of bold and often contrasting coloration make them one of the most visually impressive geckos available in the reptile trade Gargoyle geckos are medium sized lizards typically reaching adult lengths of 7 to 10 inches including the tail and weighing between 35 and 65 grams although some exceptional individuals can surpass this range Their bodies are moderately robust with strong limbs prehensile tails and feet adapted for climbing Unlike crested geckos they have claws rather than sticky toe pads which means they rely more on rough surfaces and branch like structures for climbing In terms of lifespan gargoyle geckos are long lived reptiles When properly cared for they can live between 15 to 20 years in captivity with some individuals reported to live even longer This long term commitment is a crucial aspect prospective keepers must consider especially since they form a relationship with their environment and keepers over time One of the most remarkable features of gargoyle geckos is their color and pattern

variability Captive breeding has led to an explosion of morphs including striped blotched reticulated and solid color patterns in shades of red orange yellow white and gray These morphs allow hobbyists to enjoy a wide palette of appearance options and many enthusiasts build entire collections around specific morph lines However despite their diverse visual characteristics all morphs of gargoyle geckos share the same husbandry requirements Native to forested and scrub habitats these geckos are crepuscular to nocturnal meaning they are most active at dawn and dusk During the daytime they tend to hide in crevices bark or foliage Their natural behavior includes slow and deliberate movements which contributes to their reputation as calm and handleable pets Because they evolved in stable humid environments their enclosure should replicate the moisture temperature and verticality of their native habitat However their care is not overly complex and even new reptile keepers can be successful with them if they commit to learning about their needs Why They Make Great Pets There are several compelling reasons why gargoyle geckos make excellent pets especially for those interested in reptiles but perhaps not ready for large high maintenance lizards Their calm demeanor stunning appearance relatively simple care requirements and low space demands make them suitable for both novice and experienced herpetoculturists **American Book Publishing Record** ,2005 Crested Geckos Alexander Harry,2019-08-16 Crested geckos make a great pet for most individuals Their requirements are usually easy to meet Crested geckos are known to originate from New Caledonia Crested geckos are considered as wonderful and amazing pets for most pet owners and children They are of low maintenance and very good pets for children and even adults Crested geckos usually have a length of 7 to 9 inches and can live up to 10 to 20 years Crested geckos do exist in a wide range of colors There are different colors crested geckos do come in they usually have a fringed crest which runs from their eye down to their neck and back This book is a complete guide on everything you need to know about crested geckos GET YOUR COPY OF THIS BOOK TODAY **Exotic DVM.** ,2006 Crested Gecko the Complete Guide Taylor Evans,2024-02-20 CRESTED GECKOS COMPLETE GUIDE BOOK UNLOCK THE SECRETS TO CARING FOR YOUR CRESTED GECKO WITH THIS COMPREHENSIVE GUIDE FROM SETTING UP THE PERFECT HABITAT TO UNDERSTANDING NUTRITION HEALTH CARE AND BEHAVIOR THIS BOOK COVERS EVERYTHING YOU NEED TO KNOW TO ENSURE YOUR GECKO THRIVES EXPLORE ESSENTIAL TOPICS INCLUDING INTRODUCTION TO CRESTED GECKOS AND THEIR UNIQUE TRAITS HABITAT SETUP AND MAINTENANCE TIPS COMPREHENSIVE FEEDING AND NUTRITION PLANS ADVANCED HEALTH CARE STRATEGIES HANDLING TECHNIQUES AND BEHAVIORAL INSIGHTS BREEDING AND CARING FOR HATCHLINGS SEASONAL CARE AND BRUMATION CREATING A STIMULATING ENVIRONMENT FOR YOUR GECKO WHETHER YOU RE A BEGINNER OR AN EXPERIENCED KEEPER THIS GUIDE WILL EQUIP YOU WITH THE KNOWLEDGE TO BE A RESPONSIBLE AND INFORMED GECKO OWNER Reptiles ,2009 Exotic Animal Medicine - E-Book Lance Jepson,2009-06-02 Exotic Animal Medicine A Quick Reference Guide provides readily accessible user friendly information for veterinarians who do not have detailed knowledge of the majority of exotic
