Peter Letkemann

Crime As Work:

Crime as Work Peter Letkemann, 1973 This is a book about safecrackers bank robbers B E men hotel prowlers and other rounders none of them members of organized crime but all of them experienced criminals Based on interviews both inside and outside of prison Letkemann examines the work habits of these men the learning of the necessary skills the choice of a criminal line and the various factors both social and technical which affect a criminal s modus operandi He uncovers a curious work ethic including pride of workmanship the criminal s response to new technology e g better safes and electronic alarms the class division of crime and even to the schools of crime our prisons showing that criminal life is comparable in many ways to the structure and goals of straight society

Crime and Work Jared Bernstein, Ellen Houston, 2000 Greater labor market opportunities result in lower crime rates a clear link that is often ignored in policy debates on crime reduction This study examines the labor market characteristics of the offender ex offender population and the labor market conditions these potential workers face It identifies ex offenders as a distinctly disadvantaged subset of the low wage workforce they have little education weak job histories and weak labor market attachment plus the additional penalty of a criminal record Even at a time when the overall economy is growing workers in this sector face higher levels of un and underemployment This monograph argues fuller employment for ex inmates will need innovative labor market solutions including increases in the minimum wage more education and training and the expansion of work supports such as the Earned Income Tax Credit

Work and Crime Ann D. Witte, Helen Tauchen, 1994 In this paper we explore the relationship between crime and work using data for a cohort sample of young men We find that working and going to school significantly decrease the probability of committing criminal acts and by virtually identical amounts Parochial school education and higher IQ are also significantly associated with lower criminal proclivities but a high school degree has no significant effect These findings in conjunction with other research suggest that participation in legitimate activities employment or school per se has a greater effect on criminal behavior than does the higher income associated with employment or educational attainment
