Robinson, 2017-10-23 This volume brings together a collection of essays many of them scholarly classics which form part of the debates on three questions central to criminal law theory The first of these questions is what conduct should be necessary for criminal liability and what sufficient The answer to this question has wider implications for the debate about morality enforcement given the concern that the harm principle may have collapsed under its own weight Secondly essays address the question of what culpability should be necessary for criminal liability and what sufficient Here the battles continue over whether the formulation of doctrines such as the insanity defense criminal negligence strict liability and others should ignore or minimize the extent of an offender s blameworthiness in the name of effective crime control Or are methods of accommodating the tension now in sight Finally essays consider the question of how criminal law rules should be best organized into a coherent and clarifying doctrinal structure The structure grown by the common law process competes not only with that of modern comprehensive codifications such as the America Law Institute s Model Penal Code but also with alternative structures imagined but not yet tried Merry and McCall Smith's Errors, Medicine and the Law Alan Merry, Warren Brookbanks, 2017-04-13 Errors and violations harm many patients this book explores how to improve both accountability and patient safety in healthcare Criminal Law - Third Edition A P Simester, G R Sullivan, 2007-08-09 This leading account of English criminal law combines a detailed exposition of the law with an exploration of its theoretical underpinnings **California. The Soundest Theory of Law C. L. Ten, 2004 The papers in this volume focus on two central issues in the philosophy of law the relationship between law and morality and crime and punishment In the essay that gives the title to this volume it is argued that although in many legal systems there are in fact significant connections between law and morality these connections are not conceptually or logically necessary They depend on various social practices Ronald Dworkin's famous attempt to undermine the legal positivist's separation of law from morality is rejected and it is argued that Dworkin's own positive theory of law may indeed be quite compatible with certain versions of legal positivism Other essays explore the notion of a wicked legal system the rule of law and various perspectives on the nature of law The essays on crime and punishment discuss the theory and practice of punishment They extend the work done in the author's earlier book Crime Guilt and Punishment They reject a purely retributive justification of punishment in spite of the increasing sophistication in its recent formulations
