

Colvin: *Crime and Coercion*

- In general, the greater the degree of coercion, the greater the criminal involvement
 - People are most at-risk for crime when they endure coercion that is harsh and erratic
- Social-psychological deficits intervene between the coercion and the outcome behavior
 - Coercion can increase coercive ideation, anger, and humiliation while decreasing self-control, social bonds, and self-efficacy
 - Coercive ideation—the individual views the world as coercive and feels it can only be overcome from acting coercively in return
 - Notice these are factors discussed in other sociological theories of crime
