Crime In A Changing Society Pelicans:

Disciplines of Education Ivor Morrish, 2019-08-13 First published in 1967 this book suggests that educational problems should not and indeed cannot be solved in isolation but that we need to bring all our disciplines and resources to bear upon them It explores in turn philosophical psychological and sociological approaches to educational theory and examines great thinkers such as Plato R Shipwreck Gordon Thomas, Max Morgan-Witts, 2014-07-01 This Edgar Award Finalist by two New York Times bestselling authors provides an exciting account of the devastating and mysterious cruise ship fire The Washington Post In the early morning hours of September 8 1934 the luxury cruise liner Morro Castle carrying 316 passengers and 230 officers and crew caught fire a few hours out of the New York harbor on a return voyage from Havana The fire spread with terrifying swiftness transforming the ship into a blazing inferno One hundred thirty four people died that night was it an accident Writers Gordon Thomas and Max Morgan Witts prove that the disaster was no accident but was planned meticulously and deliberately by an officer of the Morro Castle His name George White Rogers chief radio officer They also prove that Rogers was responsible for the death of the captain who was poisoned several hours before the fire broke out Shipwreck is a spellbinding moment by moment account of the Morro Castle s last voyage and one of the most spectacular disasters to stir the Atlantic Ocean Through interviews with survivors rescuers and investigators the authors detail a desperate investigation and the search for a mass murderer Against the backdrop of the Great Depression and the buildup of World War II Shipwreck is a sweeping tale of personal heroism tragedy and murder **The Impact of Crime, Crime Insurance, and Surety Bonds on Small Business in Urban Areas** United States. Crime, Shame and Reintegration John Braithwaite, 1989-03-23 Crime Shame and Reintegration is a contribution to general criminological theory Its approach is as relevant to professional burglary as to episodic delinquency or white collar crime Braithwaite argues that some societies have higher crime rates than others because of their different processes of shaming wrongdoing Shaming can be counterproductive making crime problems worse But when shaming is done within a cultural context of respect for the offender it can be an extraordinarily powerful efficient and just form of social control Braithwaite identifies the social conditions for such successful shaming If his theory is right radically different criminal justice policies are needed a shift away from punitive social control toward greater emphasis on moralizing social control This book will be of interest not only to criminologists and sociologists but to those in law public administration and politics who are concerned with social policy and social issues **Criminals Coming of Age** A.
