## **Criminal Court Consultation:**

*Applying International Humanitarian Law in Judicial and Quasi-Judicial Bodies* Derek Jinks, Jackson N. Maogoto, Solomon, 2014-07-01 The work analyzes the impact and implementation of international humanitarian law in judicial and quasi-judicial bodies. Moreover, acknowledging the high impact domestic jurisdictions have in the configuration of international law, the book does not rest only in an analysis of the international jurisprudence but delves also into the question of how domestic courts relate to international humanitarian law issues.

*A Review of Criminal Court Consultation* D. Robinson, 1990 This is a collection of 18 essays plus an introduction by the editors. The latter is particularly useful as it emphasizes a matter of central importance to the use of mental health professionals in the courts: the issues which arise in litigation are framed by the applicable law, not by psychiatry or psychology. Accordingly, the consultant should attempt to clarify the legal criteria that define the psychiatric legal issue at the outset of his or her work. Nothing has done more to obfuscate the often difficult interactions between the courts and the medical and psychological consultants than failure to understand, for example, whether or not antisocial personality is regarded as an illness for diagnostic or treatment purposes is not determinative of whether it should be an exculpatory factor with respect to the legal issue of criminal responsibility. This is not to say the law makes the questions to be addressed clear; it is difficult to imagine concepts vaguer than those on which competency to stand trial and criminal responsibility rely. Lack of determinate legal meanings invites substitution of alternative concepts of the disciplines on which courts rely to assist them in resolving the cases before them. Yet this substitution of terms confuses the task of rational adjudication.

*Fitness to Plead* Ronnie Mackay, Warren Brookbanks, 2018-06-20 The law relating to fitness to plead is an increasingly important area of the criminal law. While criminalization may be justified whenever an offender commits a sufficiently serious moral wrong requiring that he or she be called to account, the doctrine of fitness to plead calls this principle into question in the case of a person who lacks the capacity or ability to participate meaningfully in a criminal trial. In light of the emerging focus on capacity-based approaches to decision making and the international human rights requirement that the law should treat defendants fairly, this volume offers a benchmark for the theory and practice of fitness to plead, providing readers with a unique opportunity to consider differing perspectives and debate on the future development and direction of a doctrine which has up till now been under-discussed and under-researched. The fitness to plead rules stand as an exception to notions of public accountability for criminal wrongdoing, yet despite the doctrine's long-standing function in criminal procedure, it has proven complex to apply in practice and has given rise to many varied legislative models and considerable litigation in different jurisdictions. Particularly troublesome is the

question of what is to be done with someone who has been found unfit to stand trial Here the law is required to balance the need to protect those defendants who are unable to participate effectively in their own trial whether permanently or for a defined period and the need to protect the public from people who may have caused serious social harm as a result of their antisocial behaviour The challenge for law reformers legislators and judges is to create rules that ensure that everyone who can properly be tried is tried while seeking to preserve confidence in the fairness of the legal system by ensuring that people who cannot properly engage in the criminal trial process are not forced to endure it

**The Builder** ,1891 **Criminal Court Consultation** Richard Rosner,Ronnie B. Harmon,2012-12-06 During the 1980s those of us who were involved in forensic psychiatry have seen an increase in the interest in our subspecialty This increased interest has been from psychiatrists lawyers judges and correctional officials as well As a part of this demand for our services there has also been an increase in the demand for detailed quality in our reports and testimony Whether this is the result of the educational efforts of the American Academy of Psychiatry and the Law the establishment of the American Board of Forensic Psychiatry the stimulation of thought by the publication of this series Critical Issues in American Psychiatry and the Law or Supreme Court decisions such as Ake v Oklahoma is anybody s guess My experience as an observer of the development of the patient s rights movement was that there was a coalescence of numerous forces such as the new human rights movement the active mental health bar and the development of neuroleptics I therefore suspect that there are a multitude of factors contributing to the new interest in forensic psychia try and the elevation of the standards of forensic experts Regardless of the causes those who are practicing forensic psychiatry today are ex pected to conduct more thorough evaluations and to report findings more completely No longer will simple conclusory statements be accept able The forensic psychiatrist is expected to present data in a clear understandable detailed reliable and competent fashion whether testi fying or in a report
