Criminal Justice The Main Issues:

Challenges in Criminal Justice Ed Johnston, 2022-07-29 This collection examines contemporary challenges to the criminal justice system in England and Wales. The chapters, written by established academics, rising stars, and practising lawyers, seek not only to highlight these challenges but to offer solutions. The book examines issues with legal assistance in the police station, concerns relating to juror decision making, and problems in and presented by both virtual hearings and the advent of the Single Justice Procedure Notice. The work also examines challenges surrounding vulnerability in the criminal justice system. Here, diversity includes vulnerability in the criminal trial, neurodivergence, as well as issues with diversity and marginalisation in the criminal justice system as a whole. The book also discusses matters centred around sexual offending, including the attrition rate in rape cases, as well as the recent development of vigilante paedophile hunters and their acceptance as a viable limb of the criminal justice system. Finally, the volume looks at the post conviction stage and examines recent prison policy through the lens of the human rights of the prisoner. The closing chapter examines the independence of the Criminal Cases Review Commission and highlights how recent changes have undermined this. While focused on England and Wales, the topics discussed are of wider international significance and will be of interest to students, academics, and policy makers.

Whose Criminal Justice? Katherine Doolin, 2011 The overarching theme of this book is the balance between the role of a central government in creating and shaping the regulatory framework of criminal justice and the potential for communities at a local level to become more involved in responding to crime and anti social behavior in their midst. These twin dynamics are explored in the two main sections of the book. Through a series of UK case studies in Part I, *The Regulatory State*, the book examines how the central state has sought to address the risks and problems associated with crime and anti social behavior in modern times. The case studies consider the new context for law and order which arose during the period and ask how and why new sanctions were put in place to regulate particular kinds of behavior. They also highlight some of the unintended consequences, notably the criminalization of more people. In Part II, *Empowered Communities as Stakeholders in Criminal Justice*, the book explores the potential for local communities.

Criminal Justice in Scotland Hazel Croall, Gerry Mooney, Mary Munro, 2012-08-21 The existence of the separate criminal jurisdiction in Scotland is ignored by most criminological texts purporting to consider crime and criminal justice in Britain or the UK. This book offers a critically informed analysis and understanding of crime and criminal justice in contemporary Scotland. It considers key areas of criminal justice policy making in Scotland, in particular the extent to which criminal justice in Scotland is increasingly divergent from other UK jurisdictions, as well as pressures that may lead to convergences in particular areas, for instance in relation to trends in youth justice and penal policy. The book considers the extent to which Scottish crime and criminal justice is being affected both by devolution, as well as the wider pressures resulting from globalization, Europeanisation, and new patterns of migration. While the book has a Scottish focus, it also offers new ways of thinking about criminal justice relating

these issues to wider social divisions and inequalities in contemporary Scottish and UK society It extends the gaze and analysis of criminology by exploring issues such as environmental crime urban disorder and the new urbanism as well as crimes of the rich and powerful and corporate crime giving it a relevance and resonance far beyond Scotland Criminal Justice in Scotland will be an essential text for students in Scotland taking courses in criminology sociology social policy social sciences law and police sciences as well as criminal justice practitioners and policy makers in Scotland It will also be an essential source for students of comparative criminology elsewhere and academics wishing to take Scotland into account in thinking about criminal justice in the UK Proceedings of the Second Workshop on Law and Justice Statistics 1983 Alan E.
