

Criminal Process

Richard Bailey

Criminal Process:

The Trial on Trial: Volume 1 R A Duff, 2004-12-31 The trial is central to the institutional framework of criminal justice. It provides the procedural link between crime and punishment and is the forum in which both guilt and innocence and sentence are determined. Its continuing significance is evidenced by the heated responses drawn by recent government proposals to reform rules of criminal procedure and evidence so as to alter the status of the trial within the criminal justice process and to limit the role of the jury. Yet for all of the attachment to trial by jury and to principles safeguarding the right to a fair trial there has been remarkably little theoretical reflection on the meaning of fairness in the trial and criminal procedure, the relationship between rules of evidence procedure and substantive law or the functions and normative foundations of the trial process. There is a need in other words to develop a normative understanding of the criminal trial. The book is based on the proceedings of two workshops which took place in 2003 addressing the theme of Truth and Due Process in the Criminal Trial. The essays in the book are concerned with the question of whether and in what sense we can take the discovery of truth to be the central aim of the procedural and evidential rules and practices of criminal investigation and trial. They are divided into four parts addressing distinct but inter-related issues: models of the trial (Duff, Matravers, McEwan), the meaning of due process (Gunther), the meaning of truth and the nature of evidence (Jung, Pritchard), and legitimacy and rhetoric in the trial (Burns, Christodoulidis).

The Trial on Trial: Volume 2 R A Duff, Lindsay Farmer, Sandra Marshall, Victor Tadros, 2006-04-05 This book addresses the issues surrounding criminal trial such as its aims and social functions and political implications.

Encyclopedia of Crime and Punishment David Levinson, 2002 Authoritative and comprehensive this multivolume set includes hundreds of articles in the field of criminal justice. Impressive arrays of authors have contributed to this resource addressing such diverse topics as racial profiling, money laundering, torture, prisoner literature, the KGB and Sing Sing. Written in an accessible manner and attractively presented, the background discussions, definitions and explanations of important issues and future trends are absorbing. Interesting sidebars and facts, reference lists, relevant court cases, tables and black and white photographs supplement the entries. Appendixes cover careers in criminal justice. Web resources and professional organizations. A lengthy bibliography lists relevant works. The Best of the Best Reference Sources. American Libraries, May 2003.

The Exclusionary Rule of Evidence Asst Prof Kuo-hsing Hsieh, 2014-11-28 This book argues the need for the establishment of an exclusionary rule of evidence in China as a means of protecting the people from police wrongdoing. In support of the argument and as a means of developing a suitable process, the author takes a comparative approach to the foundation and development of the exclusionary rule in the UK and the USA whilst also exploring the issues that may arise in transferring the rule from one legal system to another.
