Criminal Law System Of Medieval And Renaissance Florence:

The Criminal Law System of Medieval and Renaissance Florence Laura Ikins Stern, 1994 **The Criminal Law System of Medieval and Renaissance Florence** Laura Ikins Stern, 1994 Historians of medieval and Renaissance Italy have long held that the Florentine republic fell victim to rule by oligarchy in the early fifteenth century Now in the first complete analysis of the criminal law system of Florence during this crucial period Laura Ikins Stern argues that the vitality of Florentine legal institutions gives evidence of a centralized state bureaucracy strong enough to thwart the early development of a ruling oligarchy Exploring the changing roles played by judicial officials as well as the evolution of Florentine government Stern shows how these developments reflected broad based change in society at large From such primary documents as legal statutes and actual trial records she provides a step by step explanation of trial procedure to offer a rare glimpse of inquisition methods in the secular world from public fame initiation through the weighing of various levels of proof to the complex process of sentencing And she explores the links between implementation of inquisition procedure the development of the territorial state and the struggle between republican institutions and the emerging oligarchy The Johns Hopkins University Studies in Historical and Political Science The Oxford History of the Prison Norval Morris, David J. Rothman, 1998 Ranging from ancient times to the present a survey of the evolution of the prison explores its relationship to the history of Western criminal law and offers a look at the social world of prisoners over the centuries **Urban and Rural Communities in Medieval France** Reyerson, Drendel, 2021-09-20 This volume deals with the evolution of urban and rural communities in Provence and Languedoc in the high and late Middle Ages Contributions by thirteen French American and Canadian scholars address recent insights in historical research and suggest directions for future investigation The urban and rural worlds are treated separately in studies of the growth of communities in their political topographical social and economic dimensions Then the intersection of these worlds is explored through the intricate interrelations of town and country in these regions Notarial registers are particularly rich sources of evidence for these scholars who are mindful of the southern French tradition of Roman and written law which underpinned both urban and rural institutions as they emerged in the course of the medieval period Urban and Rural Communities in Medieval France Kathryn Louise Reyerson, John Victor Drendel, 1998 This volume provides case studies of the growth of urban and rural communities and their institutions in Languedoc and Provence in the Middle Ages The importance of a Roman law tradition and the new institutions of the notary and his records are observed in both urban and rural contexts and interactions between town and country are featured Medieval Italy Katherine L. Jansen, Joanna Drell, Frances Andrews, 2011-09-21 Medieval Italy gathers together an unparalleled selection of newly translated primary sources from the central and later Middle Ages a period during which Italy was famous for its diverse cultural landscape of urban towers and fortified castles the spirituality of Saints Francis and Clare and the vernacular poetry of Dante Petrarch and Boccaccio The texts highlight the continuities with the medieval Latin West

while simultaneously emphasizing the ways in which Italy was exceptional particularly for its cities that drove Mediterranean trade its new communal forms of government the impact of the papacy's temporal claims on the central peninsula and the richly textured religious life of the mainland and its islands A unique feature of this volume is its incorporation of the southern part of the peninsula and Sicily the glittering Norman court at Palermo the multicultural emporium of the south and the kingdoms of Frederick II into a larger narrative of Italian history Including Hebrew Arabic Greek and Lombard sources the documents speak in ethnically and religiously differentiated voices while providing wider chronological and geographical coverage than previously available Rich in interdisciplinary texts and organized to enable the reader to focus by specific region topic or period this is a volume that will be an essential resource for anyone with a professional or private interest in the history religion literature politics and built environment of Italy from ca 1000 to 1400 *The Consumption of Justice* Daniel Lord Smail,2013-04-15 In the thirteenth and fourteenth centuries the ideas and practices of justice in Europe underwent significant change as procedures were transformed and criminal and civil caseloads grew apace Drawing on the rich judicial records of Marseille from the years 1264 to 1423 especially records of civil litigation this book approaches the courts of law from the perspective of the users of the courts the consumers of justice and explains why men and women chose to invest resources in the law Daniel Lord Smail shows that the courts were quickly adopted as a public stage on which litigants could take revenge on their enemies Even as the new legal system served the interest of royal or communal authority it also provided the consumers of justice with a way to broadcast their hatreds and social sanctions to a wider audience and negotiate their own community standing in the process The emotions that had driven bloodfeuds and other forms of customary vengeance thus never went away and instead were fully incorporated into the new procedures

Women and Men in Renaissance Venice Stanley Chojnacki,2000-04-03 In *Women and Men in Renaissance Venice* Stanley Chojnacki explores the central role played by women in holding Venetian patrician society together Family relations marriages and dowries were the areas in which women interacted dynamically with men The three parts of the book discuss the involvement of the state in those interactions the social and economic consequences for women and their unexpectedly varied consequences for men of the patriciate The society Chojnacki describes is at once socially complex and highly regulated On the one hand women of the Venetian nobility like patrician women in other cities were subordinate to their fathers and husbands But unlike their counterparts elsewhere Venetian patrician women exercised much control over their own wealth and property and were key players in family strategies Thanks to advantageous state regulations regarding dowries and marriage practices Venetian women influenced their fathers financial and social choices which in turn affected their fathers and husbands attitudes and behavior toward them Because limited family resources favored some daughters marriage prospects at the expense of their sisters the family and marriage practices of the Venetian nobles led to a range of vocations for women as well as for men *The Politics of Exclusion in Early Renaissance Florence* Fabrizio Ricciardelli,2007

No previous work has examined political exclusion in Early Renaissance Florence or its significance for the transition from Florentine popular government to oligarchy. Between the fourteenth and the first half of the fifteenth century political exclusion became a normal feature of political life regardless of the type of political regime it was an essential instrument by which new governments consolidated their control over the city and the countryside in one of the largest and most powerful cities of Early Renaissance Europe. Exclusion from the Republic of Florence, separation from friends and family, business and property coupled with the degradation of public humiliation engendered a new outlook on life. In Early Renaissance Florence excluded citizens across social classes became common outlaws no different for common criminals prosecuted for heresy, blasphemy, gambling or sexual deviance. By investigating these practices and attitudes of Early Renaissance Florence this book shows the dark side of Renaissance republicanism, its fear of political dissent in any form and its means to crush it at all costs. This study of the other side of Renaissance republicanism presents a new and crucial chapter in Renaissance history.

Renaissance Florence in the Rhetoric of Two Popular Preachers Nirit Ben-Aryeh Debby, 2001. The central purpose of this study is to examine the response of the preachers Giovanni Dominici 1356-1419 and Bernardino da Siena 1380-1444 to the changes the alternatives they offered and their attempts to direct the life of the laity.

A Short History of Renaissance and Reformation Europe Jonathan W. Zophy, 1999. In an effort to bridge the gap between the often different worlds of professors and students this exploration of Renaissance and Reformation Europe offers an accessible, engaging approach that pays sufficient attention to the roles and contributions of women. Its conversational tone and concise presentation are examples of an approach that is more representative than comprehensive, introducing historical figures and concepts as they flow through the narrative without frequent interruption to include and define technical and foreign terms. Rather than a compendium or grand summa, the text serves as a brief introduction to some of the major personalities, issues, events and ideas of the Renaissance and Reformation age.

Limits of Thought and Power in Medieval Europe Edward Peters, 2001. The essays in this volume constitute a series of investigations into the limitations on thought and power as conceived by thinkers in the medieval West and they draw on material ranging from law to literature. The author deals with limits on the human desire for knowledge, the passion with which knowledge could legitimately be pursued and the propriety of the knowledge sought as well as the limits that might be tolerable and tolerated in the case of royal incapacity or misbehaviour. One particular focus is the work of Dante Alighieri and these ideas are traced across a wide range of his thought. Chronologically the essays run from Augustine and the Gnostics through to Shakespeare.

Cellini Derek Parker,2003 Cellini was one of the most successful artists of his age a goldsmith and sculptor of extraordinary ability whose works of art were coveted by the wealthy throughout Renaissance Europe Yet he was also as a contemporary described him spirited proud vigorous most resolute and truly terrible Frequently tactless in dealing with those who employed him indiscriminating in his sexual encounters his temper was legendary and he killed three men How can we reconcile the sensitive artist and craftsman with the violent promiscuous brutal man In this biography the first for many years Derek Parker tells the story of Cellini in the context of his times thus allowing a full portrait of the man to emerge Born in Florence in 1500 Benvenuto Cellini grew up in the shadow of Michelangelo Leonardo da Vinci and Raphael Originally intended for a career as a musician Cellini's talent for drawing was quickly apparent and he was apprenticed to a goldsmith Aged seventeen he turned down an offer to join the great sculptor Torrigiani at the court of Henry VIII and soon afterward was accepting commissions at the extravagant court of the Medicis and from Pope Clement VII The strength of personality that saw Cellini forge a reputation as one of Europe's most gifted artists in a gifted age also saw him pursue an increasingly dangerous life of excess His tempestuous relationships with his family lovers and competitors led to the stabbing of his rival Guasconti and he took bloodthirsty revenge for the death of his brother Cecchino This lively and compelling biography of an important but frequently overlooked Renaissance artist will appeal not only to art historians but to anyone interested in the history of Europe during this period Book jacket
